INAUGURAL ADDRESS
OF
Hon. Edward F. Harrington

MAYOR OF NEW BEDFORD
MASSACHUSETTS

TO
CITY COUNCIL

JANUARY 6, 1964

BRADBURY-WARING, INC.
New Bedford, Mass.

INAUGURAL ADDRESS
OF
HON. EDWARD F. HARRINGTON
TO
CITY COUNCIL
JANUARY 6, 1964

Reverend Clergy, members of the New Bedford City Council, Mr. Assessor, members of the New Bedford School Committee and Citizens of New Bedford. Two years have passed since I stood in this very auditorium and for the first time accepted the mantle of the mayoralty of our proud City. At that time, I was humbled by the scope of the responsibility with which I had been entrusted and stimulated by the challenge which lay ahead. It was on that day that I charted for myself, our elected and appointed officials, and for the citizens of New Bedford a course which I hoped would return our tradition-studded City to the position of pre-eminence and economic well-being which it had once enjoyed. As I address you today, I believe that we have travelled considerable distances along that course which we set two years ago and attained many objectives along the way. I feel our efforts were highlighted with the selection of New Bedford from more than 1000 cities across the United States by the ARA as that City which had done the most to pull itself up by its own boot straps. Despite the progress which has been made, and despite the spirit of optimism which prevails in our City, we realize that there are still important problems facing us.

Great challenges have been confronted and partially overcome, but nevertheless other great challenges still exist.

During the next two years, the members of the New Bedford City Council, all other elected and appointed officials, the people of our City and myself must devote all of our attention to the continued solving of old problems and the attacking of new ones as they present themselves.

On December 31, 1961 before I took office, the bonded indebtedness of the City of New Bedford was \$10,940,000. I am pleased to report to you that on December 31, 1963 the bonded indebtedness of the City of New Bedford was \$10,253,000 for an overall reduction of our bonded indebtedness of \$687,000. This reduction in the overall bonded indebtedness to the City indicates that through prudent management of our City's affairs, we have been able to embark on extensive capital physical improvements programs and still reduce the bonded indebtedness of our City. Certainly anyone passing throughout our City is impressed with the tremendous building programs actually in operation and with the promise which they hold for our City in years to come.

Each year, the City of New Bedford must borrow in anticipation of taxes. Real estate bills are not sent to our property taxpayers generally until after July 1, in each succeeding year. In 1963, we improved collection methods and published at an early date a list of delinquent taxpayers. As a result, we succeeded for the first time in recent years in borrowing less than Four Million Dollars (\$4,000,000) in anticipation of taxes. This year, we borrowed Three Million Five Hundred Thousand Dollars (\$3,500,000) for a saving in borrowing to our taxpayers of a half million dollars. We shall continue these streamlined measures designed to benefit our taxpayers.

The City of New Bedford raises most of its operating revenue to meet the ordinary costs of running our City from real estate taxation. The burden of paying for all physical and capital improvements, for our welfare programs, for our School Department, for all Salaries and Wages and for the purchase and maintenance of equipment fall upon a relatively small segment of our population — the property owners.

Therefore, changes have been suggested from time to time in methods of taxation to ease some of the burden for this particular class of people. In 1962, legislation was passed by the general court for the abolition of the poll tax. Perhaps in some cities and towns of the Commonwealth a serious revenue loss will not be felt. The loss to the City of New Bedford in revenue during 1963 from this action will be \$60,000. In 1963, the legislature enacted another law affecting the real estate taxpayers in the City of New Bedford. This law provides abatements to persons over 70 years of age in certain classifications. Everyone of us essentially favors giving help to those in their golden years. Therefore, we do not complain that the state legislature has given them a measure of assistance nor do we complain that it has abolished the poll tax. We do, however, cry out in anger that the same legislature which granted these releases from taxation to certain classes of citizens has provided no funds to reimburse the cities and towns for the loss of revenue which is sure to follow. No estimates were prepared or were available to the state legislature when the legislation was enacted.

We presently are unable to establish the cost of this legislation to our taxpayers but we are certain that it will have a direct effect upon our 1964 tax rate.

Continued action by the legislature to cut into the tax base of the cities and towns across the Commonwealth without providing reimbursing funds can wreck the economy of these same cities and towns.

In Municipal Government, we must in each year appropriate sufficient money to pay all of our ordinary expenses together with payments on our bonded indebtedness. This is not true of State Government. By failing to meet its obligations to the cities and towns, the Commonwealth has succeeded in giving the appearance of fiscal responsibility.

We will continue, during 1964, to effect every possible economy to hold our tax rate within reasonable limits.

Early in 1964, we will seek the aid of various other mayors and selectmen across the Commonwealth to cause the Registry of Motor Vehicles to institute an improved system for the collection of motor vehicle excise taxes not only in our City, but in other cities and towns in the State. The present system supplying improper addresses and in many cases incorrect information, has cost the City thousands of dollars in uncollected taxes and wasted labor. Since the records of the Registry of Motor Vehicles has been reduced to a data processing system, it would be a simple matter to have the same plate issued to each individual throughout the Commonwealth in succeeding years and therefore preventing anyone from failing to pay the tax which he rightfully owes. This will end a system whereby those who pay their proper taxes are penalized by those who evade payment either through subterfuge or inadequate collection methods.

During 1963, the relationship between the Commonwealth of Massachusetts and the cities and towns in the welfare field have reached a point where responsibility and control have been separated. The State has taken over control of welfare programs, even to the point of determining salaries and wages and the number of personnel in our offices. At the same time, the Commonwealth refuses to pay its fair share in the cost of the program until ten or eleven months after the City has expended funds for this aid. I have already initiated in the General Court, legislation to the effect that the Commonwealth assume not only the control of the program but also the responsibility for it. It is time, here again, that the Commonwealth accept its responsibility to the cities and towns and accept the burdens which properly belong to the State government. In New Bedford during 1963, \$1,205,622.41 was expended in all categories of welfare including disbursements, salaries, and administration expenses. This points out how important and unbelievably high these costs actually are. It also points out how critical an item welfare is to the people of our City and particularly to our City taxpayers. The City

actually expended \$1,684,210.79 in 1963, which represents \$11.00 on our municipal tax rate.

As decent human beings, we must all support programs designed to aid those of our fellow citizens who are in need and whose very lives depend upon the assistance of the community. We need a revamped welfare program free of inefficiencies and tailored to the changing times. Under present conditions, only the Commonwealth with its right to control the program can properly bring about the necessary administrative changes.

One of the serious problems besetting us is that of providing an opportunity for our young men and women in their late teens to receive proper training so as to enable them to take their places in society and become good citizens. We have neither a vocational high school physically capable of enrolling all of our young people who desire to attend, nor a comprehensive high school.

We are in the process of our first school building program in recent years. We owe it to our young people and to our City to continue this plant expansion program.

New Bedford High School is very overcrowded. During 1964, we must take definite action to provide additional space for a comprehensive high school.

We must take immediate steps to enlarge the physical facilities and increase the training opportunities at New Bedford Vocational High School. We have been very successful in receiving Federal funds for many capital improvements during the last two years. We must aggressively pursue fund opportunities under recent Federal legislation to enable us to expand our New Bedford Vocational High School facilities.

The culmination of our Urban Redevelopment program may have seemed to many of you to be long in coming. A tremendous amount of technical effort has been exerted to bring the program to the point it has reached in 1963. The final

obstacle to the completion of all planning stages of the program was hurtled when the Commonwealth of Massachusetts retained engineers to design the downtown connector. I feel that the engineering study should be completed in a matter of two or three months, and the program will move into the actual execution stages in 1964. The Urban Redevelopment program will remake the face of our City, provide better housing for our people and opportunities for industrial expansion. The long wait will more than be compensated for by the benefits to be achieved.

I certainly hope that the current construction project at the Incinerator will end the smoke nuisance problem which has plagued us for many years.

We must carefully consider during this year the needs of our work force for additional wages and increased benefits.

A new police station will be constructed in the north end of our City, and a new garage and storage facility will be built near the Municipal Incinerator for the Water Department. This latter construction is made necessary because of the condition of the present structure and the coming of Route 195.

In 1963, we made available the parking facilities in the south end of our City, which had been promised for many years, but which had never been provided. The Kerwin Parking facility in the center which has caused many headaches, is gradually gaining public acceptance and will defray its own cost, but not as quickly as was initially expected. Early this year, I will sit down with center merchants, listen to and evaluate their problems and explain to them what in my opinion the municipality can or cannot do by way of additional off-street parking in the center area.

The problem of pollution in the Acushnet River is being aggressively attacked. We have requested Federal planning funds to assist us in the planning stages. This program will be

enlarged to plan for new sewers in those areas which have long been neglected, particularly in our north end, and the upper Rockdale Avenue area.

New Bedford long prided itself on having the finest and purest water in the country. A recent survey which I initiated last year indicated that while our water is still of a very high quality, steps would have to be quickly taken if we were to retain fine water and hold ourselves out to industry as a City with excellent water for industrial purposes. I propose to adopt many of the proposals contained in the water chemists recommendations for action during 1964.

The past two years have indeed been bright ones for New Bedford's waterfront. The Merchants Cold Storage Plant is nearly completed. Frionor Corp. has indicated that it will construct and operate a large fish processing plant in the North Terminal area. Dredging in the same area has been completed so that large sea going vessels can unload cargo north of the New Bedford-Fairhaven Bridge for the first time in our long and glorious history as a seaport. Vio Bin Corp. is manufacturing fish flour and a substantial dredging program in the northern part of the North Terminal area has recently been completed. Many of our fish processors have enlarged their plant capacity and a new plant has been built on Homer's Wharf.

The most dramatic occurrence of all, however, was the agreement by the Urban Redevelopment Authority of the Housing and Home Finance Agency to share in the cost of bulkheading and filling New Bedford's new South Terminal area. We have badly needed, for many years, additional facilities for our fleet and additional land area adjacent to pier facilities where industries allied to waterfront production could locate. In 1962, when I took office, I promised that the dream of new harbor facilities and land area for the further development of industry associated with the sea would be available to our people. In 1964, we will see the dream become a reality with actual physical construction in our south ter-

minal areas. We owe a great deal of appreciation to our Redevelopment Authority and those who have worked so diligently to bring about this exciting increment to our docking facilities.

During 1964 while the actual physical construction is taking place in the south terminal area, we will embark upon a program to cause industries needing the type of facilities, which will be available, to commit themselves to locating in the south terminal complex. When the physical work has been completed, and the relocation of Maritime Terminal is completed, New Bedford will have the finest facility for vessel landings, fish processing available anywhere on the eastern seaboard, and all relatively new in construction.

We will request early in 1964 that a new program be inaugurated by the U. S. Government to aid our fishing fleet and more especially those men who make their living plying their trade in reaping New Bedford's Harvest of fish from the sea.

Subsidy programs to aid vessel builders have made it increasingly important that owners of vessels properly maintain the safety and condition of these vessels in order to protect the lives of those men who sail upon them. I have long felt that an inspection of all fishing boats in the port of New Bedford and in other Ports across the country by the U. S. Coast Guard would benefit our fishermen and at the same time assist vessel owners to achieve lower insurance rates, thereby creating a finer atmosphere in the entire industry.

During 1964, our attention will continue to be directed toward attracting to the City new and varied industrial plants to offer employment opportunities to our working force. During the last two years, we have made important strides in seeking to return our City to as close to total employment as is possible in this day of automation and mechanization.

We are pleased to announce today that Electro-Lab Printed Electronic Corp. will move into the City during the

early part of 1964. This corporation is a designer and manufacturer of high quality printed wiring. It is a subsidiary of Farrington Instruments Corp. Electro-Lab will acquire the present Farrington building and construct an addition of 30,000 square feet of manufacturing space. The addition to the building alone will be equal in size to the former Trimount Plastic Plant now located in the park. This new acquisition to our industrial family will employ 150 people and represent major new construction in the Industrial Park.

We are presently in the process of negotiating with another industry which we are nearly certain will locate within our City within the next few months. This plant will add 100 jobs to our industrial payroll, nearly all of them for men.

The task of rebuilding New Bedford's industrial and economic structure has not at all times been a simple one or one which was successful without great amounts of work and in many cases, disappointing results. Time and again, various industries have examined the material which we presented, the plans which we proposed, the opportunities which we offered, the assistance which we guaranteed, and yet for one reason or another, did not select New Bedford as a site for their relocation or expansion.

I point these facts out at this time so that the people of our City may realize that the course which we have chartered for a revitalization of our industrial economy is not an easy one, and not one which can be achieved without a continuing aggressive effort to achieve our goal. We will continue the steady progress which has marked the past two years and devote even greater energies, efforts and exertions to realization of our goal.

The world and America are in periods of dynamic change. Ideas and plans which seemed drastic 50, 20, 10 or yes, even 5 years ago, are now being rapidly outmoded by the quickly changing times. New Bedford's pace has also quickened as we have taken great strides to restore our City

to its pre-eminent position in the nation, and in the State. Anyone passing through our City cannot help but be impressed with the great construction projects changing the face of our City, and with the zeal and enthusiasm of our people to create a better tomorrow for themselves, their families and their City.

The successes that we have enjoyed in 1962 and 1963 have been brought about by the hard work and imagination of all of those who have been entrusted the task of managing the affairs of the people of the City of New Bedford. I can honestly say that at all times during this period, the New Bedford City Council, as it has in the past, listened carefully and intelligently to all programs which were advanced, and in every case adopted those programs designed to build a better and brighter tomorrow.

I am certain that during the next two years, the same spirit of understanding of New Bedford's problems, that same spirit of co-operation, in all senses of the word, which has characterized the relationship between myself and the New Bedford City Council, will continue.

I am pleased to report to you on this important day in January of 1964, that much progress has been achieved in reaching the goals which we have set for ourselves; that we will continue to plan, not only for today, but for our City's future; that we will never be satisfied with the average or ordinary for New Bedford, either today or in the years to come; that we will continue to work together in concert to provide a united, dedicated leadership, and that with the help of Divine Providence, we shall succeed in attaining our goals.

Thank you and good morning.

17th Annual Report

of the

AIRPORT MANAGER

of the

NEW BEDFORD MUNICIPAL AIRPORT

For the Year Ending December 31, 1963

BRADBURY-WARING, INC.

New Bedford, Mass.

1964

December 31, 1963

To the Honorable Edward F. Harrington, Mayor, and the
Gentlemen of the City Council of the City of New Bedford.

Gentlemen:

There is enclosed the Annual Report of the Airport Manager
for the year 1963.

The Commission wishes to congratulate all airport personnel
on the continued high standards of safety for this year.

The Shawmut Avenue approach has been widened, resur-
faced and completed as a fine boulevard, offering smooth and
safe approach to our airport.

Northeast Airlines abandoned its service between New Bed-
ford and Martha's Vineyard and Nantucket. Fortunately, Mass.
Air Industries, our fixed base operator, instituted its own sched-
uled air service to these Islands, and has greatly improved air
transport in that direction.

Our goals for the future are to:

1. Improve commercial air schedules and service.
2. Continue our program of long-term leasing of our
valuable real estate in an effort to make the airport
financially self-supporting.
3. Embark on a program designed to make our airport
a regional air terminal that will complement the
network of Federal and State highways soon to be
joined in New Bedford.

The Airport Commission concurs in the recommendations of
the Airport Manager for the next year.

Respectfully submitted,
N. B. AIRPORT COMMISSION

LOUIS J. OSTRIC,
Chairman

NEW BEDFORD AIRPORT COMMISSION

Year Ending December 31, 1963

December 31, 1963

The New Bedford Airport Commission:

Gentlemen:

December 31, 1963 marks the end of the seventeenth full year during which the City of New Bedford has operated its Municipal Airport.

The number of takeoffs and landings recorded by the Federal Aviation Agency Control Tower during 1963 totaled 40,957 compared to 38,669 during 1962, an increase of 2,288.

The following percentages, based on the total number of takeoffs and landings of the past two years, show clearly the type of aircraft now using the field:

TYPE	1962	1963
Air Carrier	17.16%	17.12%

Itinerant Aircraft:

USAF	4.85%	4.80%
Navy	2.36%	3.54%
Civil	49.16%	56.37%
	47.34%	55.68%

Local Aircraft:

USAF	11.47%	9.40%
Navy	5.09%	6.90%
Civil	9.91%	26.47%
	10.90%	27.20%

The following chart shows the number of takeoffs and landings recorded during the years 1962 and 1963 and the number of days they were recorded.

Number of takeoffs and landings	Number of days during the year	
	1962	1963
200 or more	19	12
100—199	193	217
75— 99	52	51
50— 74	33	36
25— 49	24	17
15— 24	17	11
10— 14	6	6
5— 9	11	5
1— 4	3	4
0	7	6

HIGHLIGHTS OF THE YEAR'S ACTIVITIES:

Commissioners Fred N. Darwell and William A. Silveira, whose term expired in January 1963, were reappointed for an additional three-year term and Mr. Isadore Eisner was appointed to the New Bedford Airport Commission replacing Mr. Avellino C. Freitas.

The year 1963 proved to be a very active one from all standpoints with the only exception being our Scheduled Air Carrier Service. Our overall income was increased approximately \$5,000 over that of the previous year while our deficit (not including Federal and State Aid capital improvement projects) shows a decrease of approximately \$2,300.00. This was accomplished despite the fact that our Scheduled Air Carrier service has been constantly reduced, which in turn directly affects income derived from enplaned passengers.

During the month of February, the Aerovox Corporation requested that they be released from their agreement with the Airport Commission relative to the leasing of the City Hangar. By the control of the hangar reverting to the Airport Commission, we were able to increase our income from this property \$3,800 above that of the previous years.

For the first time since the installation of display cases in the lobby of the administration building, we have been able to derive

income by renting them on a monthly or annual basis. This was possible because the corporations displaying initially paid for the original installation under the condition that there be no charge for the first ten years. In April of this year, the ten-year period expired and a rental charge of \$15 monthly or \$150 annually went into effect, giving us an additional income of approximately \$1,800 per year. I am very pleased to say that the majority of the corporations remained with us under the new terms. Those that, for one reason or another, elected not to remain were replaced by new firms.

In May, the Airport Commission entered into Grant Agreements with the Federal Aviation Agency and the Massachusetts Aeronautics Commission in the total amount of \$144,300 for the purpose of the resurfacing of, and application of runway markings on, Runway 14-32; the installation of approximately 3,500 feet of 12-inch water main; the removal of all trees and the installation of obstruction lights on the approach to Runway 32.

The amount of monies granted by the two agencies represented 75% of the estimated cost of the projects. The remaining 25% was appropriated by the City and of this City's share, approximately \$10,000 was supplied from excess funds transferred from the 1958, 1959 and 1962 Airport Construction accounts.

The four different items under this project were carried on simultaneously and finished to the satisfaction of the City, State and Federal agencies well within the time limits allocated for completion. It is my belief that because of the excellent cooperation and coordination between all parties involved, this particular project was accomplished in record time at a total cost of \$175,494.07 which was \$16,905.93 less than the total appropriation.

In July, the Bristol County project involving the rebuilding of the Shawmut Avenue entrance to the airport was completed. The finished product turned out to be a tremendous improvement as compared to the original road. There remains but one finishing touch, the installation of modern street lighting. This should be accomplished sometime during the spring of 1964.

Two years ago we applied for, and received, the deed to two parcels of property located in that area known as Mt. Pleasant Homes boarded by Tarkiln Hill Road, Kings Highway and Mt. Pleasant Street. After a great deal of time and effort, we were able to attract our first leasees, The Hathaway Oil Company, and the Hathaway Advertising Company, both of New Bedford. Also, we are in the process of negotiating a lease with the Shell Oil Company for the installation of a gasoline service station on another portion of this property. It is becoming more apparent, as time goes on, that the leasing of this property, and other properties available on the airport, will be a major item in reducing our annual deficit to a point where we will be self-supporting.

With the assistance of Professor John Alevizos of Boston University, the airport commissioners are studying the possibility of an Industrial Air Park to be located on the airport property in directly with the newly proposed Route 140.

The following leases were renewed during the year: a one-year renewal to Massachusetts Air Industries for office space in the airport administration building, a three-year renewal to the Hertz Corporation for the right to operate a car rental business from the airport, and a five-year renewal to Terminal Taxi of New Bedford, Inc. for the operation of a taxi and jitney service from the airport.

The acquisition of a large Rotary Snow Plow, valued at \$40,000, was made possible through our new priority relative to United States Excess and Surplus Equipment. This plow, which was located at Loring Air Force Base, Maine, was transported to New Bedford by airport personnel with the help of the Army Reserve at Fort Rodman and the Airport's Air Force Reserve. Approximately \$2,800 was expended to repair this unit and I am pleased to say that in operation it has greatly reduced the number of equipment and man hours normally required to clean up after any given snow storm and will appreciably decrease the over-all cost of snow removal.

Also, we were very fortunate in being able to obtain a 1960 Ford Station Wagon, in excellent condition, which enabled us to transfer our 1957 Ford Sedan to another department in the city where it was badly needed.

Additional Surplus Equipment, such as a pick-up truck, heavy duty mowers, and other miscellaneous items was applied for in December and we are in hopes of receiving them in the very near future.

The major sore spot in this year's operation, as well as the six previous years, has been Northeast Airlines' service and apparent attitude in servicing this community as well as many others in the New England area. Unfortunately, all our efforts to improve the scheduled airline service in this area have been in vain due to the fact that apparently the only controlling factors are the Civil Aeronautics Board and Northeast Airlines. Our many suggestions and pleas to both parties seem to fall on deaf ears. We have little choice now except to wait out the decision of the Civil Aeronautics Board as to the future of Northeast Airlines and the New England Regional Airport Plan, in which we are directly involved.

My recommendations for the year 1964 are as follows:

1. Attempt to obtain Federal and/or State Aid to help in the development of our planned Industrial Air Park.
2. Continue efforts to obtain a surplus Foam Crash Truck through the United States Government.
3. Concentrate on the leasing of the remaining property in the Mt. Pleasant Homes area.
4. Seek Federal and State Aid to enlarge our Garage facilities and a vegetation sterilization program on the approaches to our runways.

The airport manager wishes to extend his appreciation to the various agencies and individuals who helped to make this a most gratifying year. I would especially like to thank our airport commissioners whose cooperation and efforts have enabled us to make a definite stride in the right direction.

Respectfully submitted,

JASON G. TAYLOR
Airport Manager

SUPERINTENDENT AND INSPECTOR OF BUILDINGS

ANNUAL REPORT

1963

In accordance with Chapter 7, Section 158 of the City Code of the City of New Bedford, I hereby submit a report of the activities of the Superintendent of Buildings for the calendar year of 1963.

BUILDING DEPARTMENT

A total of Seven Hundred Forty-five (745) permits were issued in 1963 amounting to Five million three hundred ninety-two thousand six hundred forty-six dollars (\$5,392,646.00). This was Forty-three (43) more permits than in 1962 and the total valuation was Two million three hundred nineteen thousand, two hundred ninety-seven dollars (\$2,319,297.00) more than in 1962.

Listed are some of the large permits issued in 1963:

Merchants National Bank 2152 Acushnet Ave. Erect a bank building	\$50,000.00
Merchants National Bank 963 Kempton St. Erect a bank building	50,000.00
Cerebral Palsy Council Inc. 374 Rockdale Ave. Erect new building	40,000.00
N. B. Five Cents Savings Bank 791 Purchase St. Addition to bank	100,000.00
St. Luke's Hospital 101 Page St. Elevator shaft	23,000.00
South End Library Cove Road New library	305,200.00

The Building Department prepared plot plans and specifications for demolition of five dwellings on Morton Court and five buildings on South Water Street to provide parking areas for the South Water Street business district. Contract for the demolition was awarded to Victor Medeiros, Contractor, for the low bid of \$7,400.00 on April 10, 1963.

The John H. Fellouris Co., was granted a contract for \$304,965.00 to construct a branch library building on Cove Street in the south end of the City. The contract included demolition of the former Washington Social Club. Work was started in May 1963 and it is contemplated that the branch library will be substantially completed in late March 1964.

The Ellen R. Hathaway School which was occupied on September 10, 1962, was completed March 27, 1963 and final acceptance was made by the School Department on June 15, 1963.

Plans were prepared by Bishop & Hackett, Architects and Engineers, for alterations to the Keith Junior High School that will provide five additional class rooms. A contract in the amount of \$61,415.00 was awarded to the Limcar Constr. Co., of Fall River. Work was started August 20, 1963 and the class rooms should be ready for occupancy in February 1964.

Three separate contracts were awarded for modifications to the Incinerator Plant in 1963, totaling \$210,870.00. Contract-A for demolition was granted to Gracia Bros., Inc., for \$12,500.00 who commenced tearing down the original plant July 22, 1963. Contract-B for erection of structures was awarded to the D. Antonellis Co., Inc. Antonellis started excavating for foundations September 23, 1963. Contract-C was signed by Consolidated Chimney Company, to build a chimney 170

feet high, for \$77,560.00 on September 23, 1963. Work under this contract was scheduled to start on November 5, 1963 but was delayed until November 18, 1963 because of extra work made necessary when poor soil conditions were encountered at the location of the chimney foundation. This condition was rectified by removal of soil down to ledge and replacing with select sand and gravel compacted to 100% compaction.

Acting for the School Department, this office prepared specifications and sought bids for demolition of the house and accessory buildings at 709 County Street (Bishop Grace property). This was the first step in preparation of site for a new Parker Street School. The contract was awarded to the lowest bidder, Gus George Construction Co., for \$1,149.00. Work started November 26, 1963 and was completed in early December. The house at 9 Parker Street, also on the site of the proposed school, was advertised for sale to anyone who might be interested in moving the house or razing it for salvage. Only one offer was received, this from Alfred Blier who offered the City of New Bedford \$5.00 for the right to demolish for salvage. His offer was accepted and demolition was completed in late December.

SUMMARY OF BUILDING PERMITS

1963

	Permits	Estimated Cost
*New Construction	274	\$4,252,550.00
**Alterations and Additions	364	1,112,121.00
Heating	34	27,975.00
Demolitions	73
	<hr/> 745	<hr/> \$5,392,646.00

*NEW CONSTRUCTION:

Dwellings	216	\$1,676,045.00
Stores, Bus., Mfg.	21	2,168,255.00
Garages	32	31,550.00
Schools, Hospitals, Institutions	3	360,200.00
Miscellaneous	1	2,500.00
Filling Station	1	14,000.00
	<hr/> 274	<hr/> \$4,252,550.00

**ALTERATIONS AND ADDITIONS:

Dwellings	257	\$ 207,473.00
Bus., Mfg., etc.	93	728,780.00
Schools, Hospitals, Churches and Clubs	6	175,123.00
Miscellaneous	8	745.00
	<hr/> 364	<hr/> \$1,112,121.00

There were Two hundred sixteen (216) new one-family dwellings and twenty-four (24) new apartments added by conversion.

Comparative Summary of Construction for the Last Five Years

Year	No. of Permits	Estimated Cost
1959	772	\$2,638,054.98
1960	735	2,034,880.00
1961	634	3,652,721.05
1962	702	3,073,342.00
1963	745	5,392,646.00

During the year 1963, the Department made 38 special investigations. Special investigations are made as a result of a complaint by a tenant or a neighbor relative to a violation of zoning or building code.

There were 37 sign applications during 1963 which were forwarded by the City Clerk to be approved by this Department as to construction, site of location and method of erection and maintenance.

The Massachusetts state law requires that a thorough yearly inspection be made of all elevators, and a report of their condition made to the State Department of Public Safety.

There were 264 freight and 78 passenger elevators inspected during 1963.

Three new elevators were installed.

During the year, the elevator operators' licenses issued were as follows:

Renewals	81
New Applications	26
	<hr/> 107

There were 21 appeals from the ruling of the Inspector of Buildings during the year 1963 relative to the application of the zoning ordinances.

Granted	16
Denied	4
Withdrawn	1
	<hr/>
	21

Appeals that are granted are reversals of the rulings of the Inspector of Buildings; while appeals that were denied upheld the Inspector's ruling.

Places of assembly must be carefully examined according to Chapter 143 of the General Laws, as amended, before a license for their use can be obtained. This includes every building or part thereof, used as a place of public assembly and capable of accommodating 50 or more people; where 10 or more people are employed; rooming houses and apartment houses having eight rooms or 10 people above the second floor.

The following places of assembly were checked and issued certificates during 1963:

	Renewal	New
Cafes, Clubs, etc.	94	2
Industrials	5	1
Mercantile	1	
Office	3	

During the year 1963, 28 Rooming Houses having 648 rooms, were inspected. A report of each inspection was forwarded to the State Department of Public Safety.

Inspections were made on Boarding Homes and Convalescent Homes.

The Building Department made 118 inspections of buildings listed with the Relocation Service in connection with Route 195.

BUILDING MAINTENANCE

Roof repairs and replacing broken windows were the main repairs at the Maintenance Shop (former Butler Mill).

We boarded up the windows and repaired sprinklers at the Mary B. White School. This building has been closed for several years.

Under Miscellaneous Jobbing, we set up bandstands for various organizations. Several dilapidated buildings were boarded up.

Alterations were made at the Y.W.C.A. for the Senior Citizens Center.

The Kerwin Garage required miscellaneous electrical work; painting light fixtures, and bumper guards were cut and repairs made.

At the Veterans Administration Building, partitions and counters were erected for the Welfare Department and some interior painting was done. Windows and doors were repaired, and roof repairs were made.

The Isolation Hospital has required constant boiler attention and miscellaneous plumbing work. Some interior painting and miscellaneous carpentry and electrical work was done for the X-Ray Division which was moved there.

City Garage and City Yard work consisted mostly of plumbing, electrical and miscellaneous jobbing.

At the Rural Cemetery, extensive alterations were made for the relocation of the Cemetery Department office. Installed a heating boiler and miscellaneous plumbing and electrical work at the Oak Grove Cemetery.

Center Library: Floors, windows, doors, electrical work and plumbing repairs were made. Some radiators were changed and replacements installed. Repairs were made at other branch libraries but were mostly regular maintenance items.

Fire Department Station No. 3 had a new ceiling and interior painting. Station No. 7 had interior painting and repairs to doors and windows. We repaired broken glass at Station No. 10, and at the Repair Shop we put up angle irons and repaired broken glass panels.

City Infirmary although a closed building, requires watchman coverage and constant checking of sprinklers. Repairs were made to roof, doors and windows.

We did regular maintenance plumbing and electrical work at various Parks and Beaches.

For the Police Department: at the Center Station, interior and exterior painting and miscellaneous carpentry and repairs to electric, plumbing and boiler; at the North End and South End Stations, door repairs and general electrical maintenance.

Respectfully submitted,

EVELYN HENDRICKS

Clerk of the Cemetery Board

BOARD OF CEMETERY COMMISSIONERS

To the Honorable Mayor and City Council
New Bedford, Massachusetts

Gentlemen:

The Cemetery Board herewith presents its sixty-ninth annual report.

Our main office furnishings were moved to the Rural Cemetery office building by Mr. Joseph F. Martin, the mover, on Saturday, January 12, 1963, with the exception of the large filing case that covered the east wall of Room 201, in the Municipal Building. It had to be moved on the following Monday, in sections. One wall of the Rural Cemetery office building was removed in order to make room for this case.

Temporary shelves were built in the basement of the Rural office building, to hold the two hundred and one record drawers that came out of the case that had to be re-assembled in the new main office. The case was not completed until the following Thursday.

All of our old records, that had been stored at the Oak Grove Cemetery and in the Retirement Board office closet, were moved to the basement of the new main office.

Miss Noella R. Paradis, our Junior Clerk in the main office, was transferred to the ADC Division of the Welfare Office, March 4, 1963.

Mr. John McCarthy, a laborer employed by our department since 1955, retired January 5, 1963, under the Contributory Retirement System.

Another laborer in our department, Mr. Thomas Stanton, retired September 1, 1963, and he had started to work for us in 1945.

Two of our laborers passed away this year; Mr. Leopold Dextraze who had been employed since 1945, died March 25, 1963. His retirement that was pending, had not become effective. Mr. Carlos C. Tavares died suddenly, November 8, 1963, and his employment with us began in 1959.

As in the past few years, we entered a display in the Kiwanis Club Tenth Annual Flower Show that was held at the Hammond Auditorium of the Vocational High School.

We gave the G. A. R. Memorial Day Committee permission to erect a flag pole in the Griffin Street Cemetery.

A light that goes on automatically, after dark, was installed at the Rural Cemetery toolhouse, by the Building Department, to prevent any more vandalism to the gasoline pump. In March, the lock on the pump was broken three times within a week.

Miss Paulette St. Gelais, a pupil of St. Anthony High School, was appointed as acting Superintendent of Cemeteries, on Student Government Day.

A former member of the Cemetery Board, Mr. Robert S. Weaver, passed away June 12, 1963, and he was interred in his family lot at the Rural Cemetery.

Our price scale was revised, and it became effective, March 1, 1963, as follows:

	<i>Old Prices</i>	<i>New Prices</i>
Opening Graves	\$ 40.00	\$ 45.00
Foundations—per cubic foot	1.40	1.50
Rolling Lots	1.50	2.50
Fertilizer Applied—per pound15	.25
Water Flowers—once75	1.50
Water Flowers—season	3.00	5.00
Jobbing—per hour	2.00	2.75
Tomb lease per month—adult	5.00	10.00
LOTS		
Single Grave	\$ 80.00	\$ 90.00
Two Graves	160.00	180.00
Three Graves	260.00	270.00
Four Graves	350.00	360.00
Five Graves	430.00	450.00
Six Graves	520.00	540.00
Seven Graves	584.00	630.00
Eight Graves	676.00	720.00
Nine Graves	740.00	810.00
Ten Graves	800.00	900.00
		(No Change)
Single Grave (Old Age Assistance)	50.00	50.00

One-half of the above lot prices are deposited in the perpetual care fund.

A small parking area was blacktopped by the Department of Public Works employees, just inside of the Rural Cemetery Dartmouth Street entrance.

All public burial places, under the jurisdiction of the Cemetery Board, are now open to the public only during the hours and dates listed below:

November 1 thru March 31 — 7 A.M. to 6 P.M.

April 1 thru October 31 — 7 A.M. to 9 P.M.

Signs have been posted at each of our cemeteries, with the new cemetery hours printed on them.

During the year, we purchased a Lindsey air compressor, a seventy-inch Locke mowing machine, a 1964 Ford Country Sedan and six rotary power mowers.

We had two of our lowering devices rebuilt, five of our eighty-four inch National Mowers and four of our seventy-inch Locke mowers were overhauled.

A public notice was published in the Standard-Times, December 10, 1963, stating that after January 1, 1964, lot owners in cemeteries owned and operated by the City of New Bedford, whose lots are not already in Perpetual Care, may have their lots put into Perpetual Care at the rate of forty-five dollars (\$45.00) per grave.

During the year, a total of one hundred thirty-five certificates were issued for seventy-four lots and sixty-one graves. Twenty transfers of lots and graves were transacted and thirty-one burial right assignments were made. Of the total number of lots and graves sold, thirty-eight lots and thirty-six graves were sold at the Rural Cemetery, five lots were sold at the Oak Grove Cemetery and thirty-one lots and twenty-five graves were sold at the Pine Grove Cemetery. One hundred eighty-six dollars (\$186.00) was turned into the City Clerk's office for the recording fees on these transactions.

We take this opportunity to express our gratitude and appreciation for the kindness, assistance and cooperation received from His Honor the Mayor, members of the City Council, Department Heads and our own department personnel.

Respectfully submitted,

J. TUNSTALL PARHAM, Chairman
RALPH E. SALTUS, Secretary
JOSEPH J. BEATTIE

SUPERINTENDENT'S REPORT

To the Board of Cemetery Commissioners

Gentlemen:

I, herewith, submit the annual report of the work done under my supervision, during the year 1963, and recommendations for 1964.

RURAL CEMETERY

The office building and the toolhouse were painted on the outside, by the Building Department painters, and the inside of the office was also painted and rewired from 110 volt system to a 220 volt system. Aluminum windows were installed on the office building, as the building was very drafty.

Encarnacao Square, at the Dartmouth Street entrance to the cemetery, was dedicated November 11, 1963.

Two boys who admitted turning over two hundred fourteen grave stones, on June 5th, were apprehended by the police and taken to court. Restitution of one thousand dollars was made. This was the second case of vandalism in 1963, as fifty stones had been overturned, in May. A Motor Scooter was provided for the policeman who began to patrol the cemetery, after the June incident.

OAK GROVE CEMETERY

A large part of our land, on the east side of Liberty Street, was cleared of brush and trees and has been partially filled by the Department of Public Works. When this work has been completed, I recommend that this portion of our property be turned over to the City Property committee for disposal.

A boiler, in the greenhouse, that was leaking and causing us a great deal of trouble, was replaced by one we received from the Building Department. Our own personnel installed this boiler, and it is now working very well.

The evergreen shrubs that we transplanted from the Bishop Grace estate on County and Parker Streets, to the west end of Section 7, have greatly improved the appearance of this part of the cemetery.

We hope to be able to repair some of the roads in the cemetery, in 1964.

PINE GROVE CEMETERY

A number of shrubs, that were donated to us by High Hill Nursery, were set out, and working conditions in the north part of the cemetery are much better. This improvement has been noted due to the lowering of the water table in the pond.

We are still grading the single grave section, and we hope to be able to complete it in 1964.

GENERAL

Our greenhouse men are to be congratulated for receiving a Special Award for the display that we entered in the 1963 Kiwanis Club Tenth Annual Flower Show. We received many favorable comments from the general public who attended this show.

Vandalism is still of great concern to us, in all of our cemeteries, and we hope that with the help of the Police Department, we can eliminate a large part of it.

The need for new mowers and other grass-cutting equipment cannot be too strongly stressed, because in cutting the grass in all of our cemeteries, and in order to fulfill our contract with the lot owners to keep our property in first-class condition, we must have this equipment replaced annually.

Lots in cemeteries under our care, namely:—Peckham West, Point Road, Friends, Griffin Street, Saint John's, Saint Mary's, Sacred Heart, Tobey, Reynolds and Congregational Church cemeteries were kept in good condition through the year.

I express my thanks for the assistance I have received from your Honorable Board, His Honor, the Mayor, members of the City Council, Department Heads and their personnel, and to the employees of the Cemetery Department for their cooperation during the year 1963.

SUMMARY OF WORK DONE IN 1963

	Rural	Oak Grove	Pine Grove	Peckham West
Lineal feet borders trimmed	7,500	2,500	5,450	900
Foundations for tablets and markers	61	33	30	2
Foundations for monuments	51	13	31

JOHN THORNHILL,
Superintendent of Cemeteries

REPORT OF CARETAKER
of
SOLDIERS' AND SAILORS' GRAVES

New Bedford, Mass.

January 1, 1964

To the Honorable City Council of the
City of New Bedford

Gentlemen:

I, hereby, submit the following report of the work done, during 1963, on neglected lots and graves where soldiers and sailors are interred, as authorized in Chapter 218, Acts of Legislature, 1920:—

	Care of Lots and Graves
Rural Cemetery	184
Oak Grove Cemetery	151
Pine Grove Cemetery	23
Peckham West Cemetery	27
Congregational Church Cemetery	2
Griffin Street Cemetery	9
	<hr/> 396

The amount appropriated for this work was \$2,500.00 and of this amount, \$2,487.73 was expended for cutting grass, leaving a balance of \$12.27.

Respectfully submitted,

JOHN THORNHILL,

Caretaker of Soldiers'
and Sailors' Graves

ANNUAL REPORT

BOARD OF CEMETERY COMMISSIONERS

for the year ending December 31, 1963.

IN CITY COUNCIL,

October 8, 1964

Received, placed on file and ordered printed in the City Documents.

CHARLES W. DEASY,
City Clerk

Attest:

CHARLES W. DEASY,
City Clerk

ANNUAL REPORT

OF THE

CITY AUDITOR

OF THE

CITY OF NEW BEDFORD

MASSACHUSETTS

FOR THE YEAR 1963

REYNOLDS - DE WALT
New Bedford, Mass.
1964

CITY OF NEW BEDFORD

Office of the City Auditor

To His Honor Edward F. Harrington, Mayor of New Bedford,
and the Honorable City Council.

Submitted herewith are the following statements and
schedules showing the receipts and expenditures for the City
of New Bedford for the calendar year ending December 31,
1963 and the financial conditions.

Exhibit A—Balance Sheet as of December 31, 1963.

Exhibit B—Statement of Receipts for the year ending
December 31, 1963.

Exhibit C—Statement of Expenditures for the year end-
ing December 31, 1963.

Exhibit D—Summary of Receipts and Expenditures for
the year ending December 31, 1963.

Exhibit E—Report of Appropriations, Receipts and Ex-
penditures for the calendar year January 1,
1963 to December 31, 1963.

Exhibit F—Schedule of Bonded Debts and Sinking Funds
as of December 31, 1963.

Exhibit G—Schedule of Indebtedness Payable at the close
of the calendar years 1940 through 1963.

Exhibit H—Summary of Bonded Debt and Sinking Funds
as of December 31, 1963.

The City of New Bedford closed the calendar year 1963 with
a balance of \$566,591.82 in the Excess and De-
ficiency Account.

I certify that in the course of the audit of the books and
records of the City of New Bedford the cash on deposit and
securities representing the investments of sinking funds of the
City of New Bedford and several trust funds in the custody

of the commissioners, trustees and city treasurer were verified and found that the same were in agreement with reports and records rendered by said commissioners, trustees and city treasurer to the City Council.

Respectfully submitted,

ROGER G. DUBE,

City Auditor

CITY COUNCIL

At the organization meeting held on January 3, 1963, Councillor William E. Hall was elected President.

Mayor Harrington presented his budget to the City Council on February 12, 1963 in the amount of \$18,024,953.11, which was adopted March 28, 1963 after being reduced to \$17,987,108.11.

The City Council held four meetings as a quasi committee of the whole for consideration of the Mayor's budget prior to its adoption.

During the year, in addition to the 24 regular meetings, 17 special meetings were held by the City Council.

ORDINANCES

The following ordinances were among those of special interest passed during the year 1963:

RECREATION COMMISSION

established — 5/23/63; amended 6/13/63

PERSONNEL POLICY BOARD

established — 6/13/63

CONTROLLING MOTORBOATS

ON SASSAQUIN POND — 6/13/63

PROHIBITING LITTERING

11/14/63

PLUMBING REGULATIONS

Hot Water Tanks — 11/14/63

NEW CITY CODE

(ordinance adopting) — 11/26/63

(effective 12/30/63)

INCREASING MEMBERSHIP,

CEMETERY BOARD — 12/26/63

LEGISLATION

On April 29, 1963, the classification under the Conflict of Interest Law was adopted by the City Council.

On June 6, 1963, the City Council adopted the provisions of Chapter 223 of the Acts of 1957, providing for a Conservation Commission.

CONCLUSION

The receipts for the year show an increase over the preceding two years, which in and of itself reflects additional activity on the part of this office.

The vital statistics, you will note, show that the number of deaths exceeds that in any year since 1926.

A cooperative and pleasant relationship has continued with the public in general, and the office has at all times endeavored to serve as a liaison with other branches of the municipal government.

Respectfully submitted,

CHARLES W. DEASY,
City Clerk

OFFICE OF THE CITY SOLICITOR

Room 203

Municipal Building

New Bedford, Massachusetts

September 24, 1964

To the
Honorable City Council
New Bedford, Massachusetts

Gentlemen:

We are submitting herewith the Annual Report of the Law Department for the fiscal year ending December 31, 1963.

The City Solicitor and his two assistants rendered many oral and 38 written opinions during the year to the Mayor and City Council and department heads.

The number of claims filed as a result of highway defects and accidents involving city-owned vehicles amounted to 144, many of these claims being disposed of before they became Court cases.

243 Industrial Accident cases were filed with the Industrial Accident Board in Boston and many investigations were made and hearings before the Board Members were held during the year on compensation problems.

197 contracts awarded by the Purchasing Department and School Department were examined and approved by the City Solicitor. Orders for street alterations, street layouts and easements, leases pertaining to city-owned property were drafted, and deeds of sales of city property were executed.

Outstanding bills of various City Departments as a result of damage to hydrants, traffic lights, sign posts, D.P. W. work on drains, accidents involving city-owned vehicles, etc. were collected by this office in the sum of \$4,662.52.

In May of 1963, in the case of City of New Bedford vs. Ann T. Jenkins, which case was taken to Supreme Judicial Court for reimbursement of Old Age Assistance, and decision being in favor of the City, we received a check in the amount of \$6,433.79.

The City Council accepted a bequest under The Beatrice Cassie Mosgrove Fund, being one-fifth of the residue of her estate, amounting to \$15,000, to be used by the School Department for kindergarten materials.

Most of the land damage cases were settled for the taking of land and buildings on Morton Court for off-street parking in the south end of the city. Also land and house at 9 Parker Street belonging to Gretchen T. Howard, et al, taken by eminent domain for construction of a new school, was settled in the amount of \$16,600. Eastern Electric, Inc., formerly St. George Manufacturing Co., whose land and building were taken by eminent domain for a Common Public Landing, was awarded \$75,000 by a Superior Court jury as damages, from which amount outstanding taxes, with interest and costs, were deducted, and the company was paid \$42,087.71.

The city took land and buildings north of the bridge on No. Water Street by eminent domain belonging to Marie Rose Flood, Life Lease, for improvements to the waterfront.

The Law office participated in numerous negotiations and drafted many documents with relation to the North Terminal project. Among the matters handled this year with relation to this project were the land takings for Whaler's Way interpretive to the lease between Maritime Terminal, Inc. and City of New Bedford.

Also taken by eminent domain in this year was land at Sylvan Grove for Park and Playground purposes.

Government financial assistance forms, both State and Federal, were executed by this office, which resulted, or will result, in money from the government for many new projects, such as the new South End Library.

A parcel of tax title property located near the Industrial Park was cleared in the Land Court, in order that a new industry could come into the City.

Suits pending as of December 31, 1963 — 5 land damage suits for taking of land and easements in land by eminent domain; 8 personal injuries and property damage suits resulting from alleged defects in public ways; 9 suits in which the City is the plaintiff; and 6 miscellaneous cases against the City or City employees.

Respectfully submitted,

GEORGE JACOBS

City Solicitor

ANNUAL REPORT
OF THE
CHIEF
OF THE
FIRE DEPARTMENT
NEW BEDFORD, MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31, 1963

Frank H. Cleveland, Acting Chief of Department

—Reynolds-DeWalt

FIRE DEPARTMENT REPORT

Mayor of the City of New Bedford —

Dear Mr. Mayor:

I respectfully submit the Annual Report of the operations and functional status of the Fire Department for the year 1963, together with the recommendations that I consider necessary for maintaining and increasing the efficiency of the Department.

The total of alarms received for "Fires" and "Non-Fires" for the year 1963 is 1,869.

SUMMARY OF ALARMS RECEIVED

Fires	908
Emergency Calls, other than fires	666
No Fire Found, Sprinkler Trouble, Etc.	152
False Box Alarms	99
False Telephone Alarms	31
Out of City Responses	13
TOTAL	1,869

Of the actual 908 fires, 649 originated as "Still Alarms" and in 179 cases were followed by "Box Alarms" for the same fire. Of the actual 908 fires, 259 originated as "Box Alarms" and in 10 cases, calls for additional apparatus were sent out by "Still Alarms" for the same fire.

Total "Still or Telephone Alarms" transmitted from Headquarters	953
Total "Box Alarms" transmitted from Headquarters	477
	1,400

Of the total alarms transmitted, there were 908 actual fires. There were seven Second Alarms during the year.

The total fire loss for the year 1963 is \$405,179.25, of which the loss in buildings is \$198,353.15; the loss of contents of buildings is \$167,298.09; the loss on auto fires is \$21, 729.80 and loss on boats is \$17,798.21.

The fire loss this year exceeded that of 1962 by \$44,557.54. The increase is reflected in the number of second alarms in 1963 (seven) against six in 1962. However, despite the increase, our per capita fire loss of \$4.00 compares most favorably with the national average of \$7.97.

The Department responded to 666 emergency services which include resuscitator efforts, pumping out of flooded cellars and boats, removal of refrigerators that were leaking sulphur dioxide gas and numerous other types of services which this Department classes as emergency Public Service. May I state that the above calls were made as a part of the emergency service this Department provides the citizens of our City.

As authorized by Section 19 of Chapter 148, General Laws, I granted 15 Permits for Blasting.

The capable staff of Chief Officers who are responsible for administrative and firefighting efficiency in their respective Districts, in addition to a myriad of other duties related to the Fire Service, are to be congratulated for their unquestioned dedication and support to this office.

Deputy Chief Frank H. Cleveland, District Chiefs Charles J. Armanetti, Edward J. Jablonski, Daniel L. Piekut, Alphonse Piekut, James E. Harwood, Gordon W. Graham, Fred Osuch and Richard T. Gaughan made approximately 431 inspections during the year to check-out complaints and remedy hazardous fire conditions. They granted 805 Open Air Permits after visitation for assurance of fire-safe conditions.

The Home Fire Inspection Program was continued under direction of Deputy Chief Frank H. Cleveland. I wish to compliment our personnel in this phase of fire prevention. The diplomatic and efficient manner in which Company personnel conducted these inspections is highly commendable. A total of approximately 3,700 buildings and 4,500 occupancy inspections were made. In addition to the Home Inspections, schools, hospitals, theatres and convalescent homes were inspected quarterly. A continuing phase of this most important fire prevention measure also included every church in the City. If we may prevent the loss of just one life through the efforts of our Fire Prevention measures, then I would say the program is justifiable.

The Fire Alarm Division, our communications center, which services both telegraphic and radio transmission and

reception continues to operate in a most efficient and progressive manner under the direction of Assistant Superintendent of Fire Alarms Clifford J. Snell.

During the year five alarm boxes were installed on public schools, so that now all schools are equipped with exterior fire alarm boxes. Interior equipment was installed and fire alarm boxes converted to master boxes in three schools, making a total of twelve public schools which have interior fire alarm boxes and equipment connected to master boxes.

Nine public boxes were installed which required installation of approximately eighty secondary racks and ten cross arms and approximately five loop miles of aerial line wire to service these boxes.

Extensive overhead line work was necessary due to house moving for Route 195. In connection with Routes 195 and 140 plans and cost estimates were submitted to the State Department of Public Works for reimbursement on relocating overhead line wire and underground cable.

As in the past, assistance was given the Wire Department relative to the Christmas display at the Common Park.

Routine maintenance work was done by the fire alarm crew which included tree trimming, line inspection, change over to new poles, ground testing and painting outside equipment.

All fire alarm boxes were tested and inspected and the interior circuits from master boxes were tested.

One new mobile radio unit was installed in Ladder One to replace an old unit, and the aerial and ignition wire was replaced to correct a noise condition when receiving.

A new lathe and arc welder were wired and some ceiling lights relocated at the Repair Shop.

Air raid sirens were inspected and a recommendation was made to the Civil Defense Director to have sirens and associated equipment painted.

At the close of 1963, the number of fire alarm boxes throughout the City totalled 458; of this total 265 are Public and 193 are Private, 129 of the latter being the master type connected to sprinklers, heat detectors, or auxiliary pull stations.

The Repair and Maintenance Division under Master Mechanic Kenneth M. Haddock is charged with the upkeep and repair of all mobile units, many of which are specialized requiring service uncommon to most motor vehicles. The Repair Shop also maintains, repairs, and many times fabricates the special equipment and accessories peculiar to fire fighting.

Care of the eleven (11) buildings under Fire Department jurisdiction, requires that our Repair Division perform carpenter, plumbing and heating repairs which otherwise would require the services of an outside contractor.

Fire Prevention Division is headed by Captain Ernest M. Torres assisted by two lieutenants and two clerks. This Division is responsible for administering one of the most important phases of Fire Department functions, namely Fire Prevention and Investigation.

Their duties embrace the entire field of Fire Prevention and Investigation including issuing of relative permits as required by law, inspection duties, fire prevention lectures to schools and public service organizations, and investigative work in relation to suspicious fires.

Permits issued by the Division are as follows:

Power Oil Burners	368
Range, Cabinet and Space Heaters	36
Garage and Filling Stations	25
Fuel Oil Storage	24
Liquified Petroleum Gas Storage	13
Underground Tank Removals	10

Total	476
-------	-----

The Drill and Training Program is directed by Captain Raymond G. Furness. It's function is to maintain efficiency in all phases of firefighting through classroom instruction and fire ground training at the Drill Tower and various other locations.

Captain Furness, through his attendance at the Massachusetts Institute of Fire Department monthly meetings, is able to keep astride of the most modern techniques of firefighting.

Annual Underwriter service tests for all pumping engines, first aid instruction and lectures to military, Civil De-

fense, and industrial fire brigades are all a part of the duties of our Drillmaster.

Refresher courses in radiological monitoring were given to all members of the Department. The various instruments employed in the detection of radioactivity are provided by the Civil Defense Agency and are kept operational and in readiness at all Fire Stations throughout the City.

The New Bedford Protecting Society Officers and Personnel constitute a most dedicated and capable body of citizens who, with a most modern equipped salvage vehicle provide invaluable assistance to the Public and Fire Department. Serving without remuneration, the members of the Society avail themselves at any hour, day or night, in their effort to help keep the City's fire losses low. The Public should be more aware of their excellent service.

APPARATUS IN COMMISSION

- 10—Motor Pumping Engines, 5-1,000 G. P. M. and 5-750 G. P. M. Engines, all with booster hose and water tanks. Four have built-in liquid foam tanks used for flammable liquid fires. Six carry large deluge guns for use on large fires.
- 1—Motor Pumping Engine, 200 G. P. M. with power take-off pump and water tank.
- 4—Aerial Ladder Trucks, 2-85 Ft. tractor type and 2-75 Ft. non-tractor type, all equipped with ladder pipes.
- 1—City Service Ladder Truck.
- 1—Rescue and Fire Boat, on trailer — available on call.
- 1—Hose Wagon with Booster and Water Tank, equipped with forestry hose, wet-water device, flammable liquid fire fighting appliances — on call.
- 1—Automobile for the Chief.
- 1—Automobile for the Deputy Chief.
- 4—Automobiles for the District Chiefs.
- 1—Automobile for the Drillmaster.
- 3—Fire Alarm Trucks, one used only for pulling in cable.
- 3—Repair Division Cars — 1 truck and 2 sedans.
- 3—Automobiles for Fire Prevention Division
- 1—Van for towing of Rescue SCUBA and Fire Boat.
- 1—N. B. Protecting Society Salvage Truck.

APPARATUS IN RESERVE

1—Motor Pumping Engine, 500 G. P. M.

1—High Pressure Fog Truck with 435 Gallon Water Tank.

FIRE HOSE

800 feet of 3-inch hose

27,800 feet of 2½-inch hose

19,850 feet of 1½-inch hose

500 feet of 1-inch hose, high pressure

4,500 feet of ¾-inch hose

800 feet of ⅝-inch garden hose

130 Waterproof salvage covers carried on apparatus

10 Waterproof salvage covers carried on Protection Truck

NEW EQUIPMENT ACQUIRED DURING THE YEAR

Eight Gamewell Fire Alarm Boxes and related equipment.

Two Registers and Take-up Reels.

One Compressor, Hobbs Meter and related equipment for use in SCUBA operations.

My sincere thanks to the Mayor and City Council for the continuation of their excellent cooperation and good relationships with this Department.

Inter-Department cooperation is on the highest level. I extend my thanks to the Building, Wire, Water and Public Works Departments.

Our news media including the Standard-Times, and radio stations WNBH and WBSM are outstanding in the presentation of fire ground activity and various other newsworthy items related to the functions of the Fire Department. Without their fine support our Educational and Fire Prevention programs would be impossible to achieve their objective—namely, "reaching the people".

The Salvation Army, Volunteers of America and American Red Cross who faithfully dispense hot coffee and refreshments to our men at multiple alarm fires, deserve and receive our special thanks. May our fine relationship continue.

Many thanks to Civil Defense Director Mrs. Anne Fitch and her personnel for invaluable assistance in the fields of traffic, lighting, and availability of their Rescue Truck at multiple alarm fires.

Special recognition and thanks are extended to the Company Officers and firefighters who on many occasions have demonstrated their ability to fulfill their duties in the highest tradition of our service. Their participation in the many civic endeavors of our City is worthy of admiration.

RECOMMENDATIONS

TWO (2) NEW 1,000 G. P. M. PUMPING ENGINES:

The efficiency of a fire department is, to a large degree, predicated on the dependability and capacity of its' pumping engines both active and reserve. Our pumping engine posture is rapidly becoming acute. Reserve status is for all practical purposes negative, which means if an active piece of apparatus breaks down and requires extensive repairs, there is no dependable replacement—some area of the City will be exposed to inadequate protection.

Engine #1, a 750 g. p. m. pumper, quartered in Station #2, is charged with the protection of the high value district, including the entire downtown area and surrounding manufacturing districts. This engine is nearly 14 years old has seen considerable service, and should be placed in reserve status.

Engine #8, a "Shop" built vehicle, quartered on Davis Street and Acushnet Avenue is a 200 g. p. m. 12 year old vehicle, which by recognized Fire Department standards is inadequate. I strongly recommend this engine be replaced with a new 1,000 g. p. m. pumper. The present Engine #8 should be placed in reserve as a forestry wagon.

Our present active pumping engine age is as follows:

1947—one	1948—one
1950—one	1952—two
1953—one	1954—three
1955—one	1956—one

It is obvious from the above that a long range plan for gradual replacement should be instituted. I sincerely hope serious and forthright consideration be given to the above request.

REQUEST: \$52,000.00

TWO (2) NEW STATION WAGONS AND ONE (1) NEW FOUR DOOR AUTOMOBILE: Passenger type vehicles, of which we have eleven, are used by the Chief, Deputy Chief, District Chiefs, Fire Prevention Inspectors, Drillmaster and Master Mechanic.

The above vehicles are necessary in the performance of the day and night duties of the aforementioned. In the move toward economy, the practice of this department is, through the "hand-down process", get the most out of each vehicle. Three of the above vehicles, one of which is the Chief's car (1955 Pontiac) and two of 1949 vintage should be replaced.

The two new station wagons, because of their versatility would replace two of the District Chiefs' cars (1956 Ford and 1957 Plymouth) which older cars would be handed down to replace the 1949 models.

REQUEST: \$10,500.00

TWO (2) NEW FIRE ALARM BOXES: With increased new construction in residential areas it becomes imperative that such areas be protected by adequate distribution of fire alarm boxes. Our citizens need and deserve such protection for notification of fires.

REQUEST: \$300.00

FIRE ALARM IRON WIRE AND UNDERGROUND CABLE: Fire alarm iron wire and underground cable are integral units of our telegraphic Fire Alarm system. They serve as the carriers of a fire alarm signal from the various fire alarm boxes throughout the City to our Central Station at Headquarters. Much of the wire and cable has deteriorated through age and weather and must be replaced. Failure to replace such wire and cable could very likely result in serious consequences, for a breakdown would negate the receipt of a signal from a fire alarm box that was pulled on that particular circuit.

REQUEST: \$1,750.00

WIDENING OF APPARATUS DOOR AT STATION #7 AND INSTALLATION OF OVERHEAD DOOR: For the past eleven years, request has been made for the above installation. The present door opening designed during the horse-drawn days, presents a clearance of only 1¼ inches on each side for our present apparatus.

REQUEST: \$3,000.00

PORTABLE "WALKIE-TALKIE": The above device is a valuable and useful adjunct to efficient firefighting in forest areas, factories, schools, hospitals, hotels, mercantile establishments, and other areas where portable communication with Headquarters is desired. This device would also serve to good advantage on water rescue and firefighting operations.

REQUEST: \$600.00

ONE TYPEWRITER: Considerable clerical work is processed in our main office and Fire Prevention Bureau. Due to age and constant use, I recommend a replacement for the typewriter in the Fire Prevention Bureau. The older unit would then be handed down for use in one of the stations that presently does not have one.

REQUEST: \$250.00

FIRE STATION REPAIRS AND PAINTING: We have tried, with the aid of the Building Department, to effect certain minor repairs and painting of certain stations. However, major repairs are urgently needed at several stations. At Station #9, water enters through the porous bricks on the South wall of the station and runs down the brick and plaster inside of bedrooms, severely damaging walls on the second floor. This condition has persisted for several years and should be corrected.

Station #2, Central Fire Station has a severe water condition due to a leaky roof.

We should begin a long range program of station repair to eliminate further damage to the interior of the stations.

REQUEST: \$2,000.00

TWO NEW RADIOS FOR APPARATUS: This Department maintains and uses 28 mobile radio units which have been purchased over a span of 13 years. Increased service and repairs to many of the older units is indicative of their need for replacement. A plan should be instituted whereby two (2) units should be replaced yearly in order to maintain this most vital link of communications.

REQUEST: \$1,600.00

NEW 2½ INCH HOSE: Nearly half of our 2½" hose, which serves as the water carrier from pumping engine to the fire grounds, is over eleven (11) years old. Consequently,

through fireground use, annual service tests, and age, our inventory is rapidly decreasing.

It is necessary that each pumping engine maintains a complete body change in reserve and a sufficient supply be available for multiple alarm fires. At the present rate of deficiency, I recommend the purchase of approximately sixty lengths of 2½" hose in order to maintain our efficiency in that area.

REQUEST: \$3,000.00

Respectfully submitted,

FRANK H. CLEVELAND,

Acting Chief

FHC/arj

CAUSES OF FIRE — 1963

- 12 Acetylene and Blow-Torch carelessness
 - 1 Anti-Freeze
 - 6 Arcing wire
- 19 Burning food
 - 4 Burning soot
- 19 Burning with a permit
- 31 Burning without a permit
 - 2 Careless use of inflammables
- 264 Careless smoking
- 29 Carburetor backfire
 - 6 Careless use of matches
- 191 Children with matches
 - 5 Combustibles in contact with stoves, etc.
- 14 Defective and faulty carburetors
 - 4 Defective wiring
 - 1 Hot ashes
 - 4 Exposure
 - 7 Leaking gas pipes
- 17 Leaking gasoline, oil or kerosene
 - 4 Overheated brake bands
 - 1 Overheated drying machine
- 10 Overheated electric and/or gasoline motors
 - 2 Overheated exhaust pipe
 - 5 Overheated flatiron, electrical appliances
- 20 Overheated grease
- 20 Overheated stoves, ovens or fireplaces
 - 3 Overheated stacks, smoke pipes or chimneys
- 19 Overturned street flares
- 27 Oil burners — defective, improperly operated, flare-up and flooded
- 81 Short circuits — including auto, house, radio and T. V.
 - 4 Sparks from incinerator
 - 4 Sparks from grinder or buffer machine
 - 3 Sparks from stove
- 17 Spontaneous combustion
 - 2 Undetermined
- 12 Rekindle

REPORT OF DIRECTOR OF PUBLIC HEALTH

On January 2, 1963, after having been in operation for many years, Sassaquin Hospital closed its doors to patients suffering from pulmonary tuberculosis. This was made necessary by the new law governing hospitalization of tuberculosis patients passed in 1961. This private institution has, of course, always provided care for the patients ill with this disease in the City of New Bedford.

The Board of Health has been most fortunate over the years in having had such facilities available and it is only fair to remark that the expenses which were borne by the city for the care of these patients have always been most reasonable.

This closing has meant that patients would, thereafter, be sent to Norfolk County Hospital in Braintree. Of twenty-one patients who were at the hospital at the time of its closing, only two of them consented to be transferred to Norfolk County Hospital. However, by the end of the year 1963 practically all of these patients had resigned themselves to re-entering other institutions, either Norfolk County or, in the case of veterans, to the Davis Park Hospital in Providence or the Veterans' Hospital in Rutland, Mass. Also, at the time of the closing of Sassaquin Hospital, our tuberculosis clinic facilities were conducted at this institution. This meant that other quarters had to be provided and Mayor Edward F. Harrington consented to have this clinic removed to the administration building of the former Isolation Hospital at 100 Brock Avenue. As a result, we are receiving increased patronage and general acceptance of the location by the public. This clinic was transferred from the extreme north to the extreme south end without any disturbance and practically no criticism of its relocation in view of the fact that ample parking facilities have been available at the new location.

In view of the excellent tuberculosis clinic facilities that have been provided, not only for the City of New Bedford but for the surrounding towns, namely, Acushnet, Dartmouth, Fairhaven, and Mattapoisett and in view of the high professional level at which

these clinics were conducted, the Massachusetts Department of Public Health began on July 1, 1963 subsidizing this program in both Salaries and Wages and General Expenses to more than 50% of its cost. This benefit has accrued not only to New Bedford but to the above-mentioned communities. Also, the various drugs that are used in the chemotherapy program for the control of tuberculosis were provided for almost entirely in 1963 by the Massachusetts Department of Public Health through our clinic, without charge. It can, therefore, be readily seen from the above that not only has the City of New Bedford provided the most advanced service in the control of tuberculosis for the citizens of New Bedford and the surrounding towns but has been recognized by the assistance received from the State as carrying on a project which meets their every requirement.

During the year 1963 the enforcement of Article 2 of the Minimum Standards of Fitness for Human Habitation under the Sanitary Code was put into full swing by ordering that the two new Sanitarians devote practically their full time and attention to this most important feature.

ALPHEGE LANDREVILLE,

Director of Public Health

ANNUAL REPORT

OF THE

INSPECTOR OF WIRES

POLICE SIGNAL SYSTEM

STREET LIGHTS

TO THE CITY COUNCIL

For the Year 1963

BRADBURY-WARING, INC.
Printers
1964

Annual Report

New Bedford, Massachusetts

June 17, 1964

To the City Council of the City of New Bedford:

Gentlemen:

I respectfully submit the annual reports of the departments of Inspector of Wires, Police Signal System and Street Lights for the year 1963.

INSPECTOR OF WIRES

During the year 1963 the number of inspections made by the department totaled 7,096. The following are some of the larger electrical installations:

- Airport — Approach Lights
- Arlan's Department Store
- Hurricane Dike
- Quaker Oats Plant
- Maritime Freezer Terminal
- Dunkin' Donuts
- Howdy Beefburgers
- Knowles Loom Reed Works
- Pine Hill Acres Development
- Westgate Park Development
- New Bedford Textile Manufacturing Co.
- Berkshire Hathaway

The number of requests for inspections was 3,508, an increase of 320 over 1962. Other increases were two-wire receptacles, new buildings, new services, fixtures, air conditioners and switches. Fires show a substantial increase

over 1962. There were 163 inspections after fires, an increase of 326%. The main purpose of this department is the practical safeguarding of persons and of buildings and their contents from hazards arising from the use of electricity. Electrical installations by amateurs which are below the basic minimum requirements necessary for safety are constantly discovered. The misuse of cords and the use of oversized fuses are hazards which prevail throughout the City. This department will not tolerate these defects and in all cases our Inspectors require that these hazards be eliminated. Every day is "Fire Prevention Day" in the Wire Department as we take pride in the fact that we are Fire Fighters in the sense that we are constantly on the alert in causing the removal of electrical fire hazards.

The annual Christmas Display was erected on the Common and as usual attracted thousands of people. I extend my sincere appreciation to Mr. Z. Walter Janiak, Director of Vocational High School, his department heads and the students who actually erected the display.

The New Bedford Gas & Edison Light Co. donated the electricity and the Park, Water, Public Works, Civil Defense, Fire, Police and Police Signal departments helped make the display a success.

The following is a breakdown of the work completed this year:

2W receptacles	6,181
3W receptacles	620
New buildings	140
Old buildings	1
110V motors	48
220V motors	79
440V motors	12
550V motors	72
Sockets	717
Switches	3,421
Meterloops	16

New services	163
Underground services	3
Service breakdowns	29
Services reconnected	24
Service changeovers	226
Service changeovers for houses relocated	9
Oil burners	293
Oil pumps	13
Circulators	251
Oil tanks	10
Gas burners	176
Show cases	8
Incinerators	1
Gas dryers	1
Gas pumps	9
Fixtures	3,899
Fluorescent fixtures	993

Electric heaters	25
Billboard	1
Water heaters	5

Demolitions	78
Emergency lighting	7
Alterations	91
Boarding homes	10
Repairs	175
Transformers	64
Elevators	2
Circus	2
Church fairs	7
Carnivals	5
Trailer	1
Reinspections	89
Emergency generator	1
Advisory	193
Requests for inspections	3,508
Permits to electricians	2,114
Permits to owners	20
Reports of defective wiring	2,152
Yellow tags	787
Green tags	145
Blue tags	285
Red tags	52
Permits issued to N. B. Gas & Edison Light Co.	1,972

In 1963, I investigated and reported to the City Council on 80 petitions of the New Bedford Gas & Edison Light Co. and the New England Telephone & Telegraph Co. Forty-seven applications for the moving of buildings were investigated and approved.

The operating expenses for the year were:

General Expenses	\$ 1,189.65
Salaries and Wages	28,946.90
Pension	2,115.14
New Equipment	1,644.03
Christmas Decorations	4,914.02
TOTALS	\$ 38,809.74

POLICE SIGNAL SYSTEM

A new multi-conductor underground cable was installed on Purchase St. from Union St. to High St. Due to the widening of Shawmut Ave., new lines were installed on Shawmut Ave. from Hathaway Road to the Airport.

On April 16, 1963, Mr. Robert MacMillen was appointed to the position of Police Signal Electrician. Mr. MacMillen had served as a provisional appointee since 1960.

Routes 140 and 195 will cause the department to relocate underground and overhead wires during the progress of the construction. Several meetings were held with State Department of Public Works officials and Abbott Engineering Co. engineers regarding this work. The City will be reimbursed for the cost of labor and materials in all cases where underground and overhead wires have to be removed and relocated. Agreements between the Commonwealth and the Police Signal System relative to the cost of this work are being negotiated. Kempton St. west of Cornell St. to Brownell Ave., Summer St. between Cedar Grove St. and Penniman St., and Hathaway Road at a point where Route 140 will cross are the sites where work will have to be done.

In the next few months, underground cable on Weld St., Acushnet Ave., Cedar Grove St. and Ashley Blvd., will have to be removed and reinstalled due to Route 195 and the Connector Highway. The Police Signal switchboard and equipment in the Weld St. Police Station will have to be relocated to temporary quarters until the new north end police station is built.

The following is a breakdown of the work done by the Police Signal Electricians:

Police box repairs	151
New police boxes installed	8

Station No. 1 inspections	267
Switchboard repairs, Station No. 1	31
Station No. 5 inspections	257
Switchboard repairs, Station No. 5	14
Traffic light repairs	139
Overhead wire repairs	77
Underground cable repairs	54

Other work done by the department this year included:

Installation of flood light, electric service and time clock under Fairhaven Bridge.

New cross arms on East Rodney French Blvd.

Overhauling and repainting police boxes.

Tree trimming in all sections of City where branches come in contact with overhead Police Signal wires.

Wiring for lathe at City Garage.

Wiring for convenience outlets at Rifle Range.

Repairs to Story Book Land wiring at Brooklawn Park.

Wiring for teletype machine at Police Headquarters.

Constant maintenance of all traffic light systems and police boxes.

Wiring for symphony and band concerts night lighting.

During the year, the City Solicitor's office has collected \$1,215.52 in damages to traffic signals and police boxes as the result of automobile accidents.

The operating expenses for the year were:

General Expenses	\$ 13,654.28
Salaries and Wages	13,521.35

TOTALS	\$ 27,175.63

STREET LIGHTS

At the end of the year, there were 5,725 street lights in operation in the City as follows:

1,680	100 C.P. overhead	@	14.40 per year
891	250 C.P. overhead	@	23.88 per year
30	250 C.P. underground	@	23.88 per year
971	250 C.P. underground	@	31.20 per year
27	400 C.P. overhead	@	35.28 per year

16	4,000 lumens under-ground	@ 125.00 per year
85	6,000 lumens overhead	@ 54.00 per year
4	6,000 lumens overhead	@ 64.00 per year
16	6,000 lumens under-ground	@ 99.00 per year
21	6,000 lumens under-ground	@ 134.00 per year
2	10,000 lumens overhead	@ 72.00 per year
1	10,000 lumens under-ground	@ 117.00 per year
157	17,000 lumens mercury overhead	@ 88.20 per year
32	17,000 lumens mercury overhead	@ 98.20 per year
54	17,000 lumens mercury underground	@ 133.20 per year
35	17,000 lumens mercury underground	@ 168.20 per year
7	20,000 lumens mercury underground	@ 129.60 per year
2	20,000 lumens mercury underground	@ 164.60 per year
3	21,000 lumens fluorescent overhead	@ 112.80 per year
188	21,000 lumens fluorescent underground	@ 157.80 per year
8	21,000 lumens fluorescent underground	@ 192.80 per year

Numerous new lights were installed in the residential sections throughout the City and in addition, as lights were

replaced due to faulty fixtures and accidents, the intensity of these lights were increased.

Due to outages, \$69.83 was credited during the year by the N. B. Gas & Edison Light Co.

The expenses for the year were:

General Expenses	\$ 208,626.29

New Bedford, Massachusetts

CITY OF NEW BEDFORD
BOARD OF PARK COMMISSIONERS

December 31, 1963

To the Honorable City Council:

Gentlemen:

The Seventieth Annual Report of the Board of Park Commissioners on Parks, together with reports on Bath Houses, Youth Activities, Playgrounds, Retarded and Handicapped Children, Senior Citizens, and Militia under the control of this Board, is herewith presented in accordance with provisions of law, for the year ending December 31, 1963.

The Board held 10 regular meetings and 8 special meetings during the year. It was voted to dispense with meetings during July and August.

In May, the Board organized for the ensuing year, elected Everett F. Sowle as chairman and Manuel P. S. Macedo, secretary. William Smith, whose term expired in May, continued to serve as a hold-over as Mayor Edward F. Harrington did not appoint a replacement.

Bids for the Brooklawn Park refreshment concession were advertised in April. The contract was awarded to John W. Clauretie of 546 County Street for a one (1) year term beginning May 1, 1962, and ending April 30, 1963 for his bid of \$365.00. Only other bidder was Leo J. Tracey, Jr. of 475 Coggeshall Street who offered the Board \$250.00 for the concession.

Endorsed was the application of the City of New Bedford for Federal Aid under the Open Space Program for the property bounded on the east by the Golf Course, on the north by New York, New Haven Railroad, on the west by the Dartmouth Town Line, and on the south by the right of way of Route 195. Acquisition of this land was urgent to prevent disruption of the Municipal Golf Course and to permit immediate construction of new holes so that the course would continue to be playable. The holes being replaced were those on land taken by the State for the construction of Route 195.

Awarded to Suburban Excavators of 4 New Salem Street, Wakefield, Mass. was a contract for the reconstruction of the New Bedford Public Links for their bid of \$157,000. Only other bidder was P. Gioioso and Sons, Inc. of 38 Robinson Street, Dorchester, Mass. with a bid of \$201,332.20.

The lease for the Municipal Golf Course on Hathaway Road was renewed for Stanley A. Brown d/b/a New Bedford Public Links for the term of five (5) years commencing January 1, 1964 and ending December 31, 1968. The annual fee was increased from \$900.00 to \$2,000.00.

A special meeting was held with Mayor Harrington, the City Council and the Recreation Commission to work out a policy to prevail in the change-over of certain subdivisions of the Park Department to the Recreation Commission. The Board went on record as maintaining control and custody of all properties and facilities currently under their jurisdiction with the intention of co-operating 100% with the Recreation Commission and granting them use of facilities and properties needed to carry on a planned recreation program.

The Buttonwood Athletic Association was given permission to use a section of land in the north end of Buttonwood Park, northeast of the pond and near Ilion Street, to set up a baseball practice field. No lease or license was involved in the grant.

Visiting trips were held with the Mayor, Councillor Donald R. Gaudette, City Planner Richard J. Wengraf and Assistant City Planner Robert E. Stewart in conjunction with acquiring and development of the Sylvan Grove project. The Board approved Mayor Harrington's proposal and voted to take with deletion, as prepared by the City Planning Department, the land as provided by Massachusetts General Laws, (Tercentenary Edition) Chapter 45, Section 14, as amended and extended for purposes of a public playground or recreation center. As a result of this approval, recreational facilities at the park were used the latter part of the summer.

The retirement of Anthony C. Phillips, assistant superintendent, on September 1, was accepted with regret. Mr. Phillips completed 24 years of service, five of which were held in his position at retirement.

The New Bedford Exchange Club was granted use of Marine Park for its Annual Scallop Festival, August 9 - 11.

The Whalers Drum and Bugle Corps was granted use of Marine Park every Tuesday and Thursday for rehearsals.

The Girl Scout and Brownie Troops of Center I held their Field Day on May 26 at Buttonwood Park.

The Legion of Mary, New Bedford Curia, held a May Day Rally at Buttonwood Park on May 19.

The ROTC of New Bedford High School was granted permission to conduct Field Day exercises at Buttonwood Park.

The Charity Brotherhood of the Holy Ghost were granted use of the Brooklawn Park area for their fiesta June 15 - 16.

The New Bedford Tennis Association license on the building at Buttonwood Park was renewed.

The South End Youth Athletic Association was granted renewal of their license for use of Lot 12 for their Junior Pony Baseball games.

The Polish and American War Veterans Association held church services on Memorial Day at their war memorial monument in Brooklawn Park.

Appropriations and expenditures for the entire year are shown in the various tables incorporated in this report.

Respectfully submitted,

EVERETT F. SOWLE, Chairman
MANUEL P. S. MACEDO, Secretary

December 31, 1963

To the Honorable Board of Park Commissioners:

Gentlemen:

I have the honor of submitting my annual report for the year 1963. Although the appropriation for maintenance was inadequate for the needs of the department, the most necessary work was accomplished: and it is hoped that the succeeding annual appropriations will be sufficient to make many necessary improvements as well as raise the standard of maintenance. Present maintenance work does not keep up with the increased need, caused by an ever-increasing use of parks and playgrounds.

A new Buffalo house was built at Buttonwood Park by our department. Substantial chain-link fences were erected to enclose the buffalo and elk yard.

The dirt road leading from the circle to the tennis courts at Buttonwood Park was graded.

Extended 4-foot arms were added to the backstops at Ashley Park.

The wading pond at Brooklawn Park was drained and cleaned. Several hundred cubic yards of sand were used for fill. The stone on the edges was taken out and relined in cement concrete.

The department received a \$7,000 appropriation to cut and clean underbrush on the east side of Ashley Boulevard at Brooklawn Park.

A great deal of playground equipment was repaired and picnic tables were built in the shop by department workers. Park benches were painted throughout the park system.

In a move to increase sport facilities in the city, the following athletic fields were constructed and placed under our care and maintenance:

Elizabeth C. Brooks School — regulation
baseball, little league and soccer field

Elwyn G. Campbell School — little league
baseball diamond

Betsey B. Winslow School — little league
and basketball courts

Roosevelt Junior High School and Brook-
lawn Park — basketball courts

Former Harrington Memorial School —
tennis courts

On August 19, the official opening of the Sylvan Grove Park took place. The 34-acre site includes a children's recreational area with swings and slides and tables. More equipment, including additional picnic tables, will be installed later. Installation of a water spray and a drinking fountain are also planned. Space for a ball field is being cleared, and land has been set aside for possible future construction of a grammar school and branch library.

On July 1, the new Senior Citizens Center was opened to New Bedford residents 60 years old and over. The Center has been renovated by the Y.W.C.A. and is being leased by the City of New Bedford for three years at \$200.00 a month.

Under the direction of Recreation Director Edward J. Lowney, a summer bowling program opened June 24 at the 14 playgrounds. The program is co-sponsored by the City and the Hathaway Wonder Bowl. Physical fitness programs co-sponsored by H. P. Hood & Sons and the city were also begun.

Concerts were given every week during the summer on week-days and on Sunday afternoons in various parks throughout the city.

A Willys-Jeep and V-plow, recently purchased, will effect a saving and facilitate the transportation of employees, tools and materials. It has proved indispensable during our recent snowstorms in clearing off sidewalks and roadways.

A new recreation program for retarded teen-agers was innovated afternoons by the Greater New Bedford Chapter for Retarded Children, Inc. at the Center, 247 Smith Street. This was in addition to the already established Summer recreation program.

Under the guidance of Mrs. Genevieve Townley, the annual swimming classes were conducted at West Municipal Beach, Monday through Friday.

Demand for the use of the Clarence W. Arey Memorial Bandshell increases yearly. The bandshell has served countless purposes in the community ranging from symphony concerts to individual group and organizational activities.

The department participated in the Tenth Annual Spring Flower Show sponsored by the Kiwanis Club of Greater New Bedford and held in the Hammond Auditorium at New Bedford Vocational High School.

In conclusion, I wish to express my appreciation to the Commissioners for the support and co-operation accorded me in the administration of the parks during the past year. To all the staff and employees, I extend thanks for their interest and loyalty at all times.

Respectfully submitted,

EDWARD W. BARRETT,

Superintendent

BATH HOUSE DIVISION

The swimming season opened Sunday, June 16, 1963. There were twenty-four life-guards and other necessary personnel to cover East and West beaches.

All guards were chosen from the State Civil Service list. The guards and male bath house personnel were instructed in the use of resuscitator equipment. The guards were required to swim a quarter of a mile every morning and they also had weekly life saving drills. All personnel were required to have an American Red Cross standard first aid certificate.

Free swimming instructions were held for New Bedford residents. Instructions ranged from the novice through senior life saving. Mrs. Genevieve Townley and three assistants held the classes six days a week from July 1st to August 29th.

The annual water show was held August 29th. Certificates were given out by Edward J. Lowney, Director of Recreation.

There were sixty-one near-mishaps which involved the direct assistance of the guards. The number of mishaps was considerably higher this year due to the heat wave. About 250 emergency first aid cases were administered to.

I would like to commend the New Bedford Police Department for their assistance in the cases too severe to be handled at the beach. The annual Fort Phoenix to East Beach long distance swim was held Sunday, August 4th. John Higham, Jr., Administrative Secretary to the Mayor, presented awards to the five winners.

The Park Department "Annual Swim Carnival" was held Sunday, August 15, 1963. Thirty-two trophies were presented to the winners by Mayor Edward F. Harrington. Judges were Mrs. Beatrice Whalen, Irving Davids, and Mr. Lowney. Stephen F. McNamara was the starter, assisted by Mrs. Townley. Clerk of the events was James T. Bicker. John Britto was the announcer.

The following equipment is needed for next season:

1. lifeguard uniforms
2. surfboards
3. Willys 4 wheel drive dumptruck
4. aluminum baskets and racks
5. one resuscitator for north of Monkey Island.

The rafts were brought in September 6th and the beach officially closed September 7, 1963.

At this time I am thanking you, Mr. Barrett, the office clerks, and the Park Department workers for their interest, support and co-operation that they have given me throughout the year.

Respectfully submitted,

HERBERT REGO,

Head Lifeguard and
Bath House Maintenance Man

SWIMMING

I respectfully submit the following report of the swimming program held at Municipal Beach during the summer of 1963.

Enrollment for the New Bedford Park Department swimming program began June 22 and ran through June 30. Total enrollment was 584 pupils.

Swimming instructions began July 1 and ended August 28. Pupils passing the Red Cross requirements in different levels of swimming received certificates. These free swimming instructions sponsored by the New Bedford Park Department in co-operation with the American Red Cross, were conducted 6 days a week. The classes ranging from a Novice through Senior Life Saving, were held for New Bedford residents.

A large crowd of people gathered to see our 10th annual water show which was held August 28 along with the presentation of awards. The show consisted of races, and perfection in swimming in all classes. Junior and Senior Life Saving techniques were also shown, and synchronized swimming to music was performed.

Over 200 beginners and tiny tots demonstrated a pin wheel and opening of a rose. Tiny tots king and queen were elected and floated on a flowered raft being pulled by advance synchronizers.

Invited guests were Mayor Edward F. Harrington, Park Commissioners, and Edward W. Barrett, Superintendent of the New Bedford Park Department. The Mayor spoke on the importance of learning to swim and opportunities the children have in New Bedford. We were praised on the fine job being done in water safety. Edward J. Lowney presented the Red Cross certificates and Park Department ribbons to winners in swimming. He was assisted by Joseph S. Finnerty, lifeguard at the beach.

Bath house attendants and some lifeguards took a Refresher First Aid course under Genevieve Townley, a First Aid Instructor, during the summer.

Assistant swimming instructors were: Suzanne J. Caron, Nancy A. Townley and Barbara M. Bourbeau.

Total enrollment as of July 1, 1963	584
Failed to report to any classes	36
Vacations, camps, disqualifications	51
Final total for July	497
Taught to swim	497
Passed Red Cross test and received certificates	338
Tested as very good, but not strong enough for required lengths in swimming	159

Sincere thanks to Mr. Barrett and all concerned for the fine co-operation and interest shown in our swimming program every Summer.

Respectfully submitted,

MRS. GENEVIEVE TOWNLEY,

Supervisor of Recreational Athletics
(Swimming)

DIVISION OF RECREATION

Playgrounds - Youth Activities - Annual Fishing Derby
Senior Citizens Center

PLAYGROUNDS

The re-activation of the Hathaway Playground and the installation of new playground facilities at Sylvan Grove, brought to 15 the number of operable playgrounds extending from one end of the city to the other.

Forty-three (43) persons were employed for the 10-week period (program extended one week by order of the City Council).

Three Arts and Crafts specialists were assigned to visit all of the playgrounds on a staggered basis which assured each playground of adequate coverage in this regard.

Many projects, including leather and gimp, popsicle sticks, and beadwork were started and consummated during the season.

Once again, the H. P. Hood & Sons Milk Co. co-operated fully in helping us to conduct a Physical Fitness Program

which culminated in the crowning of a champion boy and girl who were awarded trophies donated by the Hood Company.

Librarian James S. Healey and Mrs. Catherine A. Bell, in charge of the Bookmobile, added diversification to the playground program when, at our request, they made possible regularly scheduled visits to each playground by the Bookmobile.

A playground Bowling program, instituted last year through the courtesy of the Hathaway Wonder Bowl, was implemented this past summer when transportation was supplied as part of a package deal. The playground leaders and assistant leaders became an integral part of this program as instructors after they, in turn, were taught the fundamentals of bowling by the bowling house experts.

A playground Miniature Golf tourney proved popular once again and our thanks go to Mr. Joseph Barbero, who generously donated the use of his excellent facilities for our tournament.

We followed our usual policy of conducting city-wide contests each Friday at the Common. Champions are chosen at their respective playgrounds, are transported to a central point — the Common — at which point the final judging and the awarding of prizes takes place. Weekly contests consisted of the following competition: pet show, doll carriage parade, quick-draw, costume, bubble-gum, and Arts and Crafts Display-Day.

Leagues were formed in baseball and basketball and the three divisional champions met in a playoff to determine the playground city champs. Informal competition in soccer, volleyball, softball, and table games occupied youngsters not prone to join the organized leagues.

A horse-shoe tourney which brought together the best "pitchers" from all playgrounds in both singles and doubles eliminations was held at the Common. Prizes were awarded to winners in both categories.

Lincoln Park Day for playground youngsters accommodated approximately 1,000 boys and girls. They were transported to and from the Park and served refreshments through the courtesy of the City of New Bedford.

The Park Department once again fully co-operated with the Citizens Fourth of July Day Committee to expedite the children's segment of their program. Brooklawn and Ashley Parks were utilized for these events.

The pond at Buttonwood Park was supervised for daily angling during the regular playground hours.

We look forward to the approaching playground season which will find 15 playgrounds in full operation under full supervision on a five-day week basis. The playground network now extends to both extremes of the city.

KEITH and ROOSEVELT JUNIOR HIGH SCHOOLS

The School Committee looked favorably upon a request from the Park Department to set up a program in another of its facilities — Roosevelt Junior High School.

The modern concept in regard to using existing facilities because of the prohibitive cost of building, is borne out in this co-operation between the School Committee and the Park Board.

Both Keith and Roosevelt Junior High Schools are now utilized on a five-night per week basis, Monday through Friday from 6 P.M. to 9 P.M. These programs are under the jurisdiction of the Park Department and are supervised by personnel hired on a per diem basis.

Informal basketball leagues are conducted and the group serviced is the age bracket of 11 through 16, in compliance with School Board rules and regulations.

At both Keith and Roosevelt, private groups have formed Little Leagues. While these programs utilize the facilities under our jurisdiction, with the School Committee's permission, they are supervised by their own officers; and referees, timers, etc., are supplied by the league. The Jewish Community Center is another organization which takes advantage of the gym use within the scope of the Park Department program.

Another way in which we co-operate with outside interests is in arranging games in competition with our own teams of the same age. This co-operation and assistance has worked out amicably for both parties and we will continue this practice contingent upon proper supervision by both parties.

It is hoped, in the near future, that other existing facilities will be made available to us in a joint effort to provide an outlet for youngsters during their leisure time, to broaden the scope of the present program and add others to comply with the demands for more diversification.

ANNUAL FISHING DERBY — BUTTONWOOD PARK POND

The Annual Fishing Derby conducted by the Park Department was once again well attended and much interest was generated by the young anglers in seeking the seasonal prizes awarded for those catching the most fish.

Rather than giving weekly prizes, we deviated from this practice and instead gave points which went to their credit for the grand prizes — a bicycle and a transistor radio, which were donated by the New Bedford-Acushnet Co-operative Bank and Travers Sports Store respectively.

A total of 241 permits to fish were issued and 1,725 fish were caught during the season.

SENIOR CITIZENS CENTER — Y.W.C.A.

The Senior Citizens of New Bedford were rewarded after long years of seeking a Recreation Center when the City of New Bedford, within the scope of the Park Department, opened the New Bedford Senior Citizens Center in the basement of the Y.W.C.A.

The grand opening ceremonies on July 1, 1963, were attended by over 200 Senior Citizens who listened to remarks by Mayor Harrington and Mr. Francis W. Looney, Director of the Massachusetts Council for the Aging. This open house ceremony was culminated with refreshments after a visiting tour of the premises.

An average of 115 persons per week are taking advantage of this new facility and the attendance is growing as the Senior Citizens are becoming aware of the availability of the Center.

A piano was donated and has become the focal point of the singing and dancing sessions which are held every Monday, Wednesday and Friday afternoons from 1 to 4 P.M.

Several of the highlights since the opening have been a reception for a visiting group of Senior Citizens from New York, a visiting trip to the Continental Bakery Company and the showing of slides of picturesque spots in Europe.

Television and radio are also available as are card tables and cards for whist and bridge.

Another most popular service of the Center is the issuing of membership cards which also entitle the bearer to go to any Zeitz-owned theatre in the city for the price of 50¢. This program was made possible through the co-operation of Mr. Robert Zeitz and his associates and is much appreciated by the Senior Citizens.

We hope to broaden the scope of this program in the year to come.

The co-operation of all concerned with recreation is deeply appreciated, particularly the Board of Park Commissioners, the Superintendent of Parks, and the office personnel. My sincere thanks to all.

Respectfully submitted,

EDWARD J. LOWNEY,
Director of Recreation

SUMMER RECREATION PROGRAM FOR RETARDED CHILDREN

The third year of the Summer Recreational Program for Retarded Children of Greater New Bedford was lengthened to care for 44 retarded children in 1963. Each application was screened so that only children who are unable to take part in any other recreational program, were accepted.

The program was held at the Center for Retarded Children, 247 Smith Street. The facilities at the Center have been enlarged by the construction of a second fenced-in playground. This permitted the children to be separated for definite periods each day. The "Pioneers", older and more capable children, were able, under this arrangement, to take part in more advanced sports and crafts, while the "Indians", younger and less capable children, were given a program geared to their special needs.

Another important expansion was the basement room, which was finished and available this year for rest periods and for activities during very hot or inclement weather.

The program was held for eight weeks, from July 1 through August 23, from 10 to 3 each day. Taxi service was provided for the children. Attendance was excellent.

The staff consisted of the director, assistant director, five qualified counselors, one counselor-in-training, and an attendant for house-cleaning and the care of diaper children. In addition, four Keith Junior High School girls, under the direction of their guidance counselor, Miss Catherine Roche, assisted each day. Twenty-four girls took part in this project and helped greatly to give the children the finest summer we have had to date. Most of the campers required a great deal of individual care, due to our policy of accepting only those children who have the greatest need for special attention.

The program was planned to be as much like programs for non-retardates as possible, even though every activity had to be adapted to the limitations of these special children. Every child completed one major wood-working project, in addition to other craft projects. Physical education and speech development were stressed as well as socially acceptable behavior. Music was used frequently as it is the one medium to which all retarded children respond.

Several local groups entertained the children, and field trips helped them learn more about the community. Parties and special activities were planned. The highlight of the season was a Camper's Circus, with the children taking part.

Case studies were compiled of each child, and nearly every camper showed improvement by the end of the summer. Children were evaluated on the basis of self-help, social adjustment, speech, toilet training, eating habits, physical coordination, and mental alertness.

The expenses were divided between the Division of Special Education of the Department of Education of the Commonwealth of Massachusetts, and the Park Department of the City of New Bedford. The program is sponsored by the Greater New Bedford Chapter for Retarded Children, Inc.

We have now been able to continue this work in a new program. Each afternoon during the school year, a group of teen-aged retardates meet with the director at the Center.

The basement room has been equipped for this purpose. Music, square dancing, social dancing, ping-pong, arts, crafts and games keep these young people constructively occupied. Every effort is made to help each young person develop to the limit of his own capacity.

Our most sincere appreciation goes to the countless people who helped us to make this program possible. As a result of this community interest and co-operation, New Bedford is considered a leader in Massachusetts and in our country for our service to retarded children.

Respectfully submitted,

GLADYS M. BOYD,

Director, Recreation Program for
Retarded Children

RIFLE RANGE

Rifle Range activity in 1963 reached an all time high. Military detachments from three Services; F.B.I., Police Association and civilians, were trained in classes and qualified in the use of small arms.

H.Q., 1st Howitzer Bn., 211th Artillery, Massachusetts Army National Guard, conducted their classes from April through September on weekends. A contingent of U.S. Air Force personnel utilized the range facilities for 15 consecutive days in July. U.S. Naval Reserve component held familiarization and marksmanship classes one weekend in August. The F.B.I. held night firing combat courses for the Police Association on three consecutive nights in August. Civilian attendance for range usage for those having permits was consistent on days conducive to good shooting.

Range conditions concerning the safety factors and upkeep of facilities are being maintained per usual.

I would like to express my appreciation for the co-operation and interest shown by Mr. Barrett and the Park Department employees in the maintenance of the rifle range.

Respectfully submitted,

ARTHUR LEE, SMC, USN, Retired
Range Control Officer

Jerrold Rogers, Patrolman
Kenneth J. Wilson, Patrolman

REMARKS AND RECOMMENDATIONS

The New Bedford Police Department has put into effect the following improvements at Headquarters and has acquired the equipment listed below during the year of 1963. This has been instrumental in working conditions being made more pleasant, resulting in a boost of morale amongst personnel that has created greater efficiency. We shall strive to continually improve ourselves with relation to our responsibility to duty because this is in the best interests of the public.

Work was started on the restoration of the exterior of Police Headquarters. Woodwork was painted and windows reglazed. We hope to continue this work next year. Some of the building not yet painted is dilapidated to the extent that woodwork needs replacing due to moisture, etc. It is also planned to point up the brick work.

The Department acquired two more electric typewriters. This brings our number up to four typewriters of this type. The quality of the work performed and the speed in which it is done is an added improvement over the conventional manual typewriter.

During 1963, every police officer of the rank of Patrolman and Sergeant attended a First Aid School given by the New Bedford Police Department at Headquarters. Eighteen hours instruction was offered to each man. It has been a number of years since such a school has been held. Next year with eight hours

of further training in First Aid, all members of the above grades will have a first class certificate with the exception of new appointees. The letters of thank you and congratulations received from the public in regard to services rendered by the department in First Aid cases more than justifies the time and effort put into this course.

An Auxiliary Radio Power Unit was added to our radio equipment. This unit was made at a minimum of cost by our radio serviceman. Previous to its acquisition, when there was a power failure in our regular radio system, a patrol car was parked outside of Police Headquarters. All broadcasting and the receiving of messages were done through this radio car. With the Auxiliary Unit, a flip of a switch makes a connection to the rest of the radio system. This method provides service instantaneously and releases an otherwise immobile radio cruiser for patrol duty.

Our Juvenile Detention rooms, both male and female, were completely painted and redecorated. The old style beds which were movable were replaced by metal bunks secured to the floor and wall. Instead of cotton mattresses, sheets and pillow cases that were formerly used with the conventional beds, we have substituted washable vinyl covered foam mattresses. This makes for a more sanitary bed and lessens the possibility of injury to the juvenile or police officer. It also eliminates the cost of replacing mattresses, sheets and pillow cases and the expense of laundering the same.

A request for \$1,570.00 was made for new wiring at Police Headquarters in the 1963 Budget. We had suffered inconvenience of fuses blowing out by reason of overload. This problem was solved by installing florescent lights using eighty watt bulbs which replaced 200 and 300 ordinary light bulbs, creating a saving of more than \$1400. This procedure resulted in acquiring modern fixtures and better lighting with lower electric power costs.

Once again I am requesting the acquisition of an oil burner and a boiler to assist another overtaxed oil burner which is being used in conjunction with a coal burning furnace. The new oil burner would replace the coal furnace which is approximately 40 years old and in constant need of repairs.

Eight 4-door sedan motor vehicles are needed to replace automobiles that have traveled over 150,000 miles each. It is a matter of simple economy when a vehicle has a speedometer reading of over 100,000 miles that it should be replaced. This is because of the cost of repairs required for a car of that mileage, and the time when its usage is lost to the department, awaiting repairs.

In order to have the department 100% equipped with radio apparatus, I am recommending that four transistor two-way radios be obtained for our four motorcycles. After the purchase of the transistor radios, one half of this amount can be obtained by reimbursement of matching funds from the U. S. Government through the Civil Defense Agency of New Bedford.

Railing for outside stairs at the South and East entrances to Police Headquarters should be erected for the protection of the public.

There is an extreme shortage of No Parking signs. Whenever a request is made for the use of more than three, they cannot be provided. The Department of Public Works has been loaning the Police Department wooden horses in these situations. Recommend that 50 cast iron stands be provided.

We have a number of typewriters fifteen to twenty years old and in constant need of repair. If we could replace four of these typewriters during 1964 it would be a step in the right direction. There is also a need for three additional filing cabinets.

It is recommended that one of our cells be padded. Use of such a cell by mentally sick persons held in detention will tend to prevent physical injury to them.

The three windows of the south garage that were installed originally with steel casing have rusted and warped so badly that the windows (swivel) can not be closed tightly. This causes a constant heat loss during the winter months. These windows cannot be serviceably repaired. It is recommended that the windows be replaced by glass blocks.

At the firing range in Police Headquarters a pulley system should be installed which will make it possible for a person to place a target on range and after firing have it returned semi-automatically. This is a safety factor in that when a number of people are shooting simultaneously, no one would have occasion to leave his firing position to look at or retrieve his target and thereby place himself in the line of fire of others.

It is respectfully requested that at least six patrolmen be appointed to bring our complement upto the number the New Bedford Police Department has been functioning with. In 1963 a request for ten appointees was made. Seven men were appointed. During the year 1963 there were two retirements, two resignations, and seven deaths (one active patrolman and six retired officers).

The office of the Chief of Police is grateful to His Honor, Mayor Edward F. Harrington and the City Councillors for their understanding in relation to the wants and problems of the New Bedford Police Department during 1963. We are also appreciative of the consideration shown us by the numerous city departments that have been so ready to satisfy our needs in such a cooperative spirit. To the television, radio and newspaper media, we are pleased to say you have been very fair and impartial in the coverage of police news. This is very important to us because premature release of news can defeat our purpose in many cases. In our dealings with the public it is felt that improved services rendered by the department during 1963 has resulted in better relations. For this we are thankful and we hope to further this mutual respect by continued dedication to duty.

THOMAS F. CAWLEY,
Chief of Police

TFC/a

Joseph A. Sciuto, M.D.

Victor Rebello, Jr.

Board Members

Leo S. Harrington

Director of Public Assistance

To His Honor, The Mayor, and to the Members of the City Council of the City of New Bedford:

Gentlemen:

The annual report of the Board of Public Welfare for the year 1963 is herewith submitted:

Gross expenditures for the public assistance programs in 1963 amounted to \$6,469,795.20, which was an increase of \$380,960.08 over the amount expended in 1962. Gross receipts from all sources for the five categories of assistance amounted to \$5,418,732.82. The net cost to the City for 1963 was \$1,051,062.38, which was an increase of \$22,669.27 above that for 1962.

Vendor payments for medical care for all categories totalled \$2,140,544.41, an increase of \$172,254.07 over 1962 payments.

Factors involved in this increase were the increased case loads in the Medical Assistance for the Aged and Aid to Families with Dependent Children categories, as well as revisions in the fee schedules for the mandatory State Department of Public Welfare Medical Care Plan.

As of January 1, 1963, revised per diem rates for hospitals and care in Public Medical Institutions were certified by the Division of Hospital Costs and Finances, and on March 1, 1963, upward revisions were made in the Dental Fee Schedule.

On August 11, 1963, the Disability Assistance Law was amended to provide for medical care rendered by institutions prior to date of application. Federal and State financial reimbursement is available for vendor institutional medical assistance rendered for a 30-day period prior to application. This same feature applies now to all federally aided categories with the exception of Old Age Assistance.

Chapter 432 of the Acts of 1963 changed the title of Chapter 118 of the General Laws to Aid to Families with Dependent Children. This category was previously known as Aid to Dependent Children.

By statute, the cost of living in Old Age Assistance is changed whenever the monthly statistics prepared by the Division on the Necessaries of Life in the Department of Labor and Industries show an over-all increase or decrease in the cost of living of five percent or more since the month next preceding in which the cost of living was sufficient to require a corresponding change in the budgetary standards. This provision does not apply in the case of inmates of boarding homes or institutions who are receiv-

ing aid under the Old Age Assistance Law. As of September 1, 1963, there was an upward revision in the cost of living as computed from the last change, and recipient budgets had to be so adjusted. These budgets now reflect a 36% increase over the basic budgetary items. This cost of living adjustment is also applied to Aid to Families with Dependent Children and Disability Assistance aid grants.

On October 1, 1963, the item of "Leisure Time Activities" for all Old Age Assistance recipients was increased by Chapter 550 of the Acts of 1963 from \$4.00 to \$5.00 monthly.

The Advisory Board of the State Department of Public Welfare repealed Rule §10, thereby eliminating the lien requirement in Disability Assistance.

Effective November 17, 1963, exemptions of single children in Old Age Assistance and Medical Assistance for the Aged were increased from \$2,450.00 to \$2,700.00 for single children in the home, and from \$2,700.00 to \$2,950.00 for single children out of the home.

In 1963 the Public Assistance categories were integrated into two separate units: the Family Unit, consisting of all cases in Aid to Families with Dependent Children and General Relief cases in which there are children under the age of eighteen years, and the Adult Unit, which consists of all Old Age Assistance, Medical Assistance for the Aged, Disability Assistance and adult General Relief cases.

With this integration, it was necessary to hire additional supervisory, social work and clerical staff and this has greatly taxed our working quarters, which were already over-crowded prior to addition of extra staff. In order to obtain maximum efficiency to accomplish good work, adequate, well-heated, airy and well-lighted working quarters should be provided.

It has been previously mentioned in this report that case loads are increasing in the Medical Assistance for the Aged and Aid to Families with Dependent Children programs.

With our ever increasing aging population and rapidly multiplying medical costs, more and more people, who were formerly in a position with fixed incomes to provide for their own medical needs, find themselves financially unable to do so, and they are availing themselves of the liberal Medical Assistance for the Aged law, which allows a single person income up to \$150.00 monthly and a combined income of man and wife of \$225.00 monthly. In addition to this, a single person is allowed a personal property

exemption of \$2,000.00, and a man and wife a combined ownership of \$3,000.00 in personal property. With publicity being given to a proposed federal Medicare program, added attention has been given to our present Medical Assistance for the Aged program, and, as a result, a greater number of applications are being received.

The disabled, the unemployed and the unmarried parent and the broken home are the causes for the increase in the Aid to Families with Dependent Children case load. With the abolishment of the rule requiring that a couple be separated at least for a period of six months before being eligible for this type of aid, the influx of applications from this type of situation has continued unceasingly. We are now faced with the problem of a couple separating after the exchange of a few words, and the mother coming in to apply for this type of aid the same day or the day following the separation.

The breakdown and subsequent breakup of a marriage is not the desirable conclusion when it results in frustration for the adults concerned and the complete bewilderment of the innocent children. Instead of this program resulting in the end to a new situation, it is being used by some individuals as a means to an end. It is to be hoped that somehow, some day, someone on the local, state or federal level will come up with a satisfactory solution or a program which will remedy or rectify this situation and strengthen the home and the moral fibre of the adults and children therein. It is most unfortunate that liberal dosages of tolerance, understanding and pride cannot be literally injected into these marriages which fall apart so easily at the seams.

We wish to extend our sincere appreciation to: the Honorable Mayor and Members of the City Council, Heads of other City Departments, Mr. James A. Donnelly, District Director of the Massachusetts Department of Public Welfare and his staff, to the many public and private agencies and businesses who have co-operated with this department, and to the members of our own staff, all of whom have contributed to the administration of this most sensitive program of providing for the needs of our fellow man.

Respectfully submitted,

LEO S. HARRINGTON,

Director of Public Assistance

GENERAL RELIEF

The following cases were granted hospital care during the year 1963:

79 House and 111 Clinic cases, having New Bedford settlement.

30 House and 50 Clinic cases, having no settlement.

17 House and 16 Clinic cases, having other cities and towns settlements.

This is a total of 126 House and 177 Clinic cases.

The physicians attached to the Board made 100 house visits and had 469 office visits from recipients of General Relief.

The Board of Health requested this department to procure histories and determine settlements of 44 cases.

Annual Report
OF THE
CITY PURCHASING
DEPARTMENT

CITY OF NEW BEDFORD
MASSACHUSETTS

For the Year 1963

BRADBURY-WARING, INC.

Printers

1964

December 31, 1963

The Honorable Mayor and City Council
City of New Bedford
New Bedford, Massachusetts

Gentlemen:

We have the pleasure of submitting to you our report for year 1963.

For your continued confidence and support in our efforts to give equal opportunity to all qualified bidders, we are grateful.

We have continued to work closely with all of the departments to effect for them every saving possible. Their cooperation has been excellent in our efforts to conduct all purchasing activities in accordance with the laws and ordinances of the City.

Respectfully submitted,

FERNANDO P. CRUZ,
Purchasing Agent

CITY OF NEW BEDFORD, MASSACHUSETTS PURCHASING DEPARTMENT

REPORT OF THE PURCHASING DEPARTMENT — 1963

The work of the Purchasing Department during 1963, the seventh full year of its operation, is summarized in the schedules of Requisitions, Purchase Orders and Contracts listed on the following pages.

The City Ordinance provides that the Purchasing Department is responsible for procurement of all supplies and contractual services required by any department which derives its support wholly or in part from City funds, with the exception of professional expert consultant or similar contractual services. The Department is also responsible for the disposal of all surplus scrap and unusable materials.

The operating expense for 1963 follows:

Salaries and Wages	\$ 13,609.60
General Expenses	1,994.88
	<hr/>
	\$ 15,604.48

Purchases of miscellaneous small items, usually required immediately, are made promptly after prices have been checked. On items involving less than \$100.00 competitive bids are invited by telephone, on items over \$100.00 by mail and on special equipment bids are advertised. Contracts are issued on purchases involving \$500.00 or more.

All advertised bids are received sealed by the Purchasing Department, and are opened and read in public and a summary of the bids prepared and posted on the Bulletin Board. When inviting bids on contract purchases and on purchases under \$500.00 efforts have been made to include all known concerns in New Bedford who are in a position to submit bids, and many contracts and purchase orders have been awarded to New Bedford business companies.

The City is exempted by law from payment of Federal Excise Taxes and it has been the policy of the Purchasing Department to provide exemption certificates to cover such taxes where taxes may have been paid previously. Purchases of motor passenger cars, motor trucks, batteries and other automotive equipment are covered by exemption certificates.

It has been the practice of the Purchasing Department to arrange for cash discounts whenever possible and there is record of over 400 Sellers who regularly allow discounts on purchases made by the City. The City Auditor and the Department Heads are fully aware of the advisability of taking cash discounts, and through their cooperation the total of cash discounts earned and taken during 1963 is enough to pay the operating expenses of the Purchasing Department.

CONTRACTS

Formal Contracts are required to authorize purchases of \$500.00 or more and 182 such contracts were written during 1963. Contracts are drawn up by the individual departments and mailed out for Contractor's signature after which they are returned to the Purchasing Department and processed.

No work is permitted until contract and bond have been approved by the City Solicitor and signed by the Mayor.

Many contracts were issued for future delivery on an established price basis of supplies used by various departments, resulting in uniform quality and minimum cost. Such contracts are based on total requirements with no guarantee of quantity.

Much progress has been made during 1963 in expediting processing of contract documents but the interval from award to execution approximates eight days and efforts will continue to reduce this interval.

SAVINGS:

Over-all savings through centralized purchasing cannot be determined accurately although certain definite savings over prices previously paid under similar market conditions, or prices known to be under the prevailing market, have been recorded and details are available from the Purchasing Department files. Because of the varied types of work covered by construction contracts, there is no definite basis for comparison of costs, but the wide circulation given to Invitation to Bid has undoubtedly resulted in substantial savings to the City.

Secondary Education

Office of
Superintendent of Schools
New Bedford, Mass.

December 24, 1963

Honorable School Committee
New Bedford, Massachusetts

Mrs. Ferreira and Gentlemen:

In accordance with the laws of the Commonwealth and the adopted policies of the New Bedford School Committee, I have the honor of submitting my third report as Superintendent and the one hundred and third annual report of the New Bedford Public Schools.

Because accompanying reports will detail the accomplishments of the past year, I do not feel it incumbent upon me to present to you a diary of 1963 but rather to interpret the record in the light of our educational philosophy and draw implications for the future.

Although you may easily find hundreds of books and thousands of words defining education, I suggest to you simply this: "... a corridor to competence, to culture, to citizenship." This should not be a corridor with but one door for entry at one end and one door for exit at the other. This should be a corridor with many doors, many doors for points of entry and many doors for points of departure. This should not be a corridor where all travel in rigid military lines when a bell rings nor should it be one where pandemonium reigns complete. If we believe that man is capable of making wise choices, is capable of self-government, then our educational system must be one in which he has the opportunity to make choices, learn the results of failure, the dangers of success, and the responsibilities of maturity. This is extremely important in view of the fact that this is the only country left in the world where the education of youth is not handed down from some state agency by prescription with little or no local option.

The 1960 census revealed that one out of every six school children attended a public school in one of the six-

teen largest American cities. Although New Bedford is not one of the sixteen, it does have characteristic gray areas in common with all metropolitan districts. Taking steps to combat "gray" area deterioration, we have seen the school building program proposed in 1962, on the architect's planning board in 1963, to be an actuality in 1964. The replacement of the Parker, Cedar and Merrimac Street Schools, each over 100 years of age, with a 25-room modern elementary school is not a successful venture in obtaining new bricks and steel but rather an opportunity to present a flexible, adventuresome program to children. The addition of 5 rooms at Keith Junior High School, a new cafeteria at Normandin, remodeling of an older one at Roosevelt are just means of bringing to these schools the adequacy of space and program which has been previously denied. The reservation of land in the Sassaquin area indicates our faith in the City of New Bedford as a dynamic, growing organism with boundless possibilities yet untapped.

That in 1963 we witnessed the establishment of a summer school enrolling over 1,000 students and an evening accredited high school diploma program enrolling over 500 adults proves that in New Bedford the "corridor to competence" has many doors open to all and that the length of that corridor is determined only by the motivating desire of the individual regardless of age or circumstance.

Steps have been taken and will continue to be taken to rehabilitate other areas on the elementary school level. However, on the senior high school level, we are about to graduate in June, 1964 the largest class in the history of the school. This is not the first time we have funnelled post-war babies through New Bedford High School. We had double sessions for ten years when post World War I babies travelled down the long corridor of learning. However, this time more than two out of three stay in school instead of one out of three graduating, six out of ten are enrolled in the college preparatory curriculum instead of the business curriculum as was the experience in the 1930's. For many, the kind of jobs they will enter even in 1965, not to mention 1970, do not exist today. No one person nor no committee can positively and fully foretell the vocational future of any child, but in view of the responsibilities certain fundamental questions must be answered and answered soon to the best of our combined knowledge.

Automation's most important impact will not be on the numbers of employees as much as on their qualifications and functions. There may be actually no workers on the production floor of tomorrow's push-button factory as you may now witness on the floor of an oil refinery or that of a power generating plant. But, at the same time, an incredibly large number of highly skilled jobs will be created.

Therefore, these questions must be answered:

1. Should General or Academic or Vocational Education exist in separate compartments?
2. Does it cost more to re-train an unemployed adult or to properly train a youth in a school constantly tuned and retuned to the changing needs of the business and industrial community?
3. What shall be the educational philosophy of the New Bedford High School and in light of that philosophy how large should it be to efficiently place that philosophy in practice?

To pose unanswerable questions or to leave questions unanswered may be the philosophical or the diplomatic treatment but not that of the practical administrator. If, for no other reason than to create a focal point for argument and eventual action, I submit my answers. I believe that the goals of academic, vocational or general education in today's world of continual change are indistinguishable and no longer should children be dropped into slots expecting to be fashioned according to patterns determined in the 1920's. I believe schools should be in constant touch with the communities' needs, local and national, and they should be the first who should be willing and unafraid to change. However, this need for a change must come from objective, well-grounded evidence provided by valid research. Such research could be provided if six research centers in the nation were set up to correspond with the six regions now existing, one of which is called the New England Association of Colleges and Secondary Schools.

To be even more practical and local, I believe the curriculum at the New Bedford High School has become much more flexible than thirty years ago but it must become even more flexible. At this point, let us not confuse softness with flexibility but rather let us combine the hard core of the

best of our culture with the exciting changes of today's knowledge to form a steel cable of many strands giving both strength and flexibility.

One thing is certain, if we wish to return to the "good old days" or we wish to get something for nothing, stop reading, stop thinking and do nothing but slowly shift the weight from one foot to the other. If, on the other hand, we realize that space requirements at the New Bedford High School are limiting the curriculum offerings, the guidance services, the physical education of the students . . . then four avenues are open:

1. Add to the present structure on a "go it alone" basis since the state will not provide assistance on this site.
2. Build a second high school in another section of the city.
3. Add to the Keith Junior High School converting that structure to a senior high school and the present senior high school to a junior high school.
4. Obtain an entirely new philosophy of Vocational Education from the state top level so as to include the types of vocations not now recognized and included in their program. This would demand not only more bricks and steel as they expanded their physical plant but also would require a change in their philosophy. They would then become part of the public school system and not act as a selective school system denying admission to some and turning back to the public schools such minors as do not integrate properly.

Detailed discussion of these avenues is limited not only by space but also because these are a matter of record by the Evaluating Committee of the New England Association of Colleges and Secondary Schools plus the Marshall Report plus reports of previous superintendents and assistant superintendents and principals. This coming year is the year to remove the question marks and decide upon a course of action.

That people and not projects alone will improve education is most evident when you read the reports from the two assistant superintendents. That they both operate on a

high level of excellence is obvious and a fact for which I am deeply grateful. That they both are concerned with the pursuit of excellence being carried on daily within the classroom is equally obvious by their definite plans for 1964 and their work in 1963. This also should be a concern and a source of gratitude not only to the dedicated School Committee members but also to all the citizens of New Bedford. An organization, regardless of its size, depends upon the quality of the people who staff that organization. Therefore, it is with a great sense of loss that this year marked the passing of George M. McCarthy, Building Maintenance Foreman of the New Bedford Public Schools. His activities over the years, effecting teachers and children alike, were marked by a deep sense of devotion to duty balanced by a sense of humor which endeared him to all.

Regardless of past performance, the quality of tomorrow's teaching must be much, much higher than today's. There is no question to be answered here, . . . in 1964, all must join hands to raise the quality level of classroom teaching in New Bedford by every possible means so that our schools will not contribute in any way to a breach between our concept of equality and belief in the essential worth and dignity of the individual. Let us strive mightily, that to each child we open the door in the corridor of learning, we allow him to remain until he has reached that door which is properly marked for him and is never slammed shut in his face.

Respectfully submitted,

JAMES R. HAYDEN,

Superintendent of Schools

Pupil Personnel Services

As literally thousands travel our "corridors of learning", the individual is still our chief concern. His path is at times beset with obstacles which require specialized help from persons specially trained. This is the function of Pupil Personnel Services.

Tests taken in small or large groups are ...

... scored by machine methods

... or individual tests are hand scored and interpreted
by school psychologists

Results of aptitude and achievement tests are interpreted in
small groups by certified guidance counselors

Elementary School Adjustment Counselors use test information plus many other sources to help the individual child with his individual problem either in school . . .

. . . or enlist the aid of the parent by visits to the home

Guidance Counselors
help students plan
their curriculum
choices . . .

. . . establish tentative
goals . . .

. . . and explore
job opportunities
in a realistic
manner

The precious gift of hearing is tested each year ...

... and auditory training is given by therapists to those in need of special help

Speech therapists
help those with
problems not
associated with
a hearing loss ...

Phonics and sounds
are dramatized ...

... which help in
remedial reading
programs ...

... designed to help the particular reading problem
of the individual child

Planning, coordinating and evaluating these many specialized services
is the Director of Pupil Personnel Services ...
MRS. LUCILLE B. CARON

ANNUAL REPORT

DEPARTMENT OF SECONDARY EDUCATION

In strengthening the foundations of our democracy, schools, parents, the church, and community bear the obligation of developing in our youth far more creativity, civic character, and moral responsibility than ever before. The explosion of knowledge of this age demands a flexible educational program which includes constant curriculum revision, selection of new textbooks, improved teaching techniques, and most important, quality teachers.

Each pupil is entitled to the best possible education of which he is capable. The essence of secondary school training is improved standards of performance on the part of pupils in the various learning levels of programs leading to graduation.

This is our constant goal.

SIGNIFICANT DEVELOPMENTS

A complete review of activities involved in the operation of secondary school programs during the past year is beyond the scope of this report. A selected list of changes, achievements, and problems is presented as an indication of developments which occurred.

PERSONNEL

The education of youth is dependent on the character, ability, and dedication of their teachers more than on any other single factor in the school system. Improvement in teacher quality is needed, not because teaching is inadequate compared with the past but because the demands of the present and future are so high. The one essential ingredient of quality education is — the teacher!

The problem of instability of staff still remains serious. During the year, 42 teachers were elected to the secondary schools to replace those who retired or resigned. The increased enrollment at the High School required the assignment of two additional members to the faculty. Since the start of this school year, four teachers have been elected to fill emergency vacancies.

A stable, competent staff is indispensable to any educational program. By the use of orientation meetings, educational TV, increased supervision, and detailed curriculum guides, the training of inexperienced teachers has been intensified.

BUILDING PROGRAM

Knowing that schools are among the most important buildings in any community, it reflects the concern and interest of those responsible for providing such facilities that we have undertaken the following:

1. Construction of five additional classrooms at Keith Junior High School was begun in September, 1963. At this writing, this project is nearing completion and occupancy is scheduled for mid-January, 1964.
2. Final plans have been approved by the State School Building Assistance Commission for a new cafeteria at Normandin Junior High School with construction to begin in March, 1964. This much-needed structure will not only relieve a four-shift lunch schedule but will permit conversion of the old cafeteria area into classrooms.
3. Remodeling of the present Normandin cafeteria into classrooms for use in September, 1964, is planned for the summer of 1964. These rooms will provide for an anticipated enrollment increase, reduction of class sizes and discontinuance of the use of several sub-standard classrooms.

Certainly, the continuing support of the taxpayer and the public in general is essential as we continue this crucial phase of our efforts. Remodeling of the cafeteria at Roosevelt Junior High School and provision of more adequate facilities for the senior high students are immediate needs.

SUMMER SCHOOL

The success of our first summer school as an integral part of the total educational program deserves particular mention. It has the general effect of extending the school year for 1,064 boys and girls.

After many months of planning and preparation, the summer session began in New Bedford High School on July 1 for a six-week period to August 9. One and one-half hour classes were scheduled at 8:30 a.m. and at 10:05 a.m. The tuition fee for each course was \$15 for residents and \$25 for non-residents.

That it achieved a marked degree of response is noted in the enrollment figures. Referring only to the secondary division, grades 7-12, there was a total enrollment of 791 students. This figure included 560 from the New Bedford Public Schools, 106 non-residents, and 125 New Bedford residents who do not attend the public schools.

In the secondary summer school, 22 "make-up" subjects were offered to students who failed during the regular school year. Tangible evidence of the intensive study by the students who signed for this reason is their passing 73% of the 451 classes they attended. More directly, four students of New Bedford High School and 18 students of the junior high schools earned their diplomas as a consequence. Peripheral benefits were gained by other students who were enabled to resume their proper grade position.

Encouraging was the fact that 175 students chose review classes for which they earned no credit, but grades were entered on their official school transcripts. Enrichment classes were well attended by 231 students in courses for typing, art, creative writing, notehand, and reading improvement.

A staff of 29 teachers was employed to teach 48 classes daily. Student attendance for the six-week session averaged a satisfactory 93.75%. This took place in spite of several days of very hot weather.

Financially, the school was adequately self-supporting. Total net receipts for tuition at the secondary level were \$15,455, resulting in a net income of \$3,429.12.

A most satisfying achievement of this activity is that of the establishment of close and supporting relationship among the schools of neighboring communities.

The efficiency of organizing and operating the summer school was a credit to Principal Walker B. Trafton. A note of appreciation is due Mr. John Rex and Mr. Arnold Gulbranson for their cooperation in preparing an attractive school brochure and other printed matter.

INSTRUCTIONAL PROGRAMS

The following noteworthy adoptions and recommendations reflect the desire of the school principals, department heads, and teachers to continue the pursuit of instructional excellence and to upgrade our schools and standards so that our pupils can receive the very best in schooling.

English

In general, the opinion of the teachers is that the Developmental Reading Program in the junior high schools has been beneficial. Seventh and eighth graders this year probably will read many more books covering a wider span of interests than their predecessors ever did. A more scientific evaluation is needed and should be implemented in 1964. The reading program will be advanced into Grade 9 if the testing program shows its efficacy in the other grades. Teachers are at work on a summer reading program for all grade levels in the hope that such a program might become effective in the summer of 1964. Serious thought will be given to add a special creative writing course for senior high school students.

Social Studies

New basic textbooks in United States History were adopted for Grades 7 and 8 and for the college preparatory course at the high school. The department is exploring the possibility at the senior high school of:

1. A two-year course in United States History and Government or,
2. A year and a half course in United States History and Government and a half-year course in Contemporary Problems
3. A year course in Economics

Mathematics

This year has seen established an honors program at each grade level beginning with grade seven. An experiment with modern mathematics in Grade 9 in the General Course has proved most gratifying. It seems in order to note with appreciation the two series of lectures in mathematics given by Dr. Irwin Jacobs of M. I. T. and a graduate

of New Bedford High School. These classes, arranged by Educational Enrichment, Inc., were eagerly attended by our mathematically capable students to gain a preview of college material. An introductory course in modern math for parents is under consideration.

Science

Attendance at summer institutes of four science teachers assured that our methods and content are kept up-to-date. Honors Biology is scheduled this year for Grade 10 students of academic talent. An honors science course for selected college curriculum pupils is offered now in all junior high schools. Earth Science has replaced the general science course for all Grade 9 General and Business Education students.

French

The 15 position language laboratories in the junior and senior schools have been used extensively and advantageously. Expansion of facilities to 30 positions is envisaged for the future. The problem arising out of these first years of the total program seem to be mainly those of programming and of teacher preparation. Classes meet twice a week at present in Grades 7 and 8. It is difficult to find in the crowded schedule of the junior high schools, sufficient hours to make these classes worthwhile.

Latin

Approximately 275 students are studying Latin in our junior and senior high schools this year, a considerable increase over last year's enrollment. Interest is stimulated in the Latin by emphasizing the cultural and practical uses of the language in our modern civilization. The enthusiasm of the Latin Club at the High School is noted in a scholarship given to a student intending to continue the study of the classics in college.

Portuguese

A full four-year course in Portuguese is in progress for the first time in the history of the study of the language in our public schools. Information from official sources pleads for the national need of a greater expansion of the study of this language.

Business Education

Increasing numbers of students choosing the study of typewriting have made it increasingly difficult to schedule classes. Space limitations made it almost a certainty that some will not be able to include it in their programs.

OTHER ACTIVITIES

A significant development of the year was the establishment of a Summer Workshop in social studies. A teacher-committee prepared curriculum guides for each of the following five courses of study: Social Studies, Grades 7, 8 and 9; World History, Grade 9; Ancient History, Grade 9; Teaching About Communism, included in all courses of study in social studies and history. Their use is intended to increase the competence of the experienced as well as the inexperienced teacher.

An in-service course in city planning for junior and senior high school teachers began November 4, 1963. The twenty-session course is aimed at giving teachers enough accurate knowledge about city planning so that a unit in city planning might be added to our social studies courses. Details will include how a city which plans for change must meet the responsibility for human as well as physical rehabilitation. Emphasis will be given to the role to be played by the pupils as future citizens in the proposed development of the City of New Bedford.

Eight teacher trainees from the State College at Bridgewater spent ten-week training periods in the classrooms under the supervision of our experienced faculty members.

School-to-home telephone teaching service was provided for two shut-in students, one at Roosevelt from February-June and the other at Normandin Junior High School from January-May. These students, both members of the top division of the 8th grade, were able to listen in and respond to regular classroom instruction and successfully maintained their class rank.

Consultation days were held for parents of eighth graders on three separate nights in each junior high school. This enabled smaller groups of parents to meet and discuss with guidance counselors the progress of the pupils and their future educational plans and choice of courses.

For this occasion, a new brochure was printed outlining the detailed program of studies for grades 7-12.

Throughout the year demonstrations of pupils' activities were presented in the various schools for the parents, including concerts and dramatic presentations. Innovations were an art fair at Roosevelt Junior High School and a humanities fair at the High School. Likewise, science fairs were held in all the secondary schools during the month of February. Pupils participated in large numbers, and the fairs were well attended by the parents and the public.

Four students from Prince Edward County, Virginia, attended our schools and completed the year's work with good records. Two of them received junior high school diplomas at graduation exercises in June.

EXISTING PROBLEMS

Every effort has been made to reflect in secondary education the entire range of the needs of our pupils. As significant as has been the achievements of our schools in past years, important problems remain before us, challenges which cannot be ignored. Among these should be mentioned:

- Means must be provided through which we can attract and hold quality teachers. This means higher salaries, smaller classes and continued assistance to each classroom instructor.
- A solution must be found to relieve the overcrowded situation in the high school. We cannot afford to curtail our educational program in this day and age when such a premium is placed upon education. We must have adequate facilities if we wish to advance and continue to make progress in our school system. New physical space will allow a broadening of course offerings fulfilling the need of a comprehensive program.
- The number of pupils who drop out of school at age 16 or before completing high school remains appreciably unchanged. This problem continues in spite of our efforts to revise our existing types of instruction, our guidance activities, and the ability of the student.

FUTURE PROJECTS

DATA PROCESSING

The first step has been taken towards the development and installation of a unit record system of data processing for all areas of the school system's operation. Budgetary provision has been made for data processing equipment to include a key punch, reproducer, sorter, and tabulator. These will be located in a Data Processing Center in the New Bedford High School about April 1, 1964.

The new center will concentrate at the beginning on student accounting for New Bedford High School; namely attendance records, scheduling student programs, and report cards. The next phase will extend the activity to the school department's accounting procedures, including pay rolls.

With data processing, there will be a considerable educational gain to:

- increase the school year by one week which is now lost in program making;
- release teachers for the important function of classroom instruction;
- expand the business education curriculum;
- control conflicts in scheduling;
- control distribution of class loads;
- print student programs, class lists, and permanent records;
- eliminate duplication in "long-hand" procedures;
- create greater availability of records through automatic duplication;
- produce accurate printed reports of student information for the principal and guidance personnel;
- streamline the mundane mechanical routines of school record keeping.

SUMMER WORKSHOP

A group of experienced teachers will be assigned to study and prepare a science curriculum guide for Grades 7-9. Similar guides in English and social studies produced by previous Summer Workshops have been valuable aids to our teachers.

RECOMMENDATIONS

Discussions with school principals and other administrative personnel reveal the need to:

- Study the elementary to secondary school promotion policy with a view toward eliminating the present situation of sending to or keeping back in the junior high school those pupils who are definitely unable or unprepared, academically or emotionally, to pursue required studies at the seven to nine grade level.
- Improve the ratio of staff to student enrollment particularly in guidance.

Of the many factors that contribute to the progress of a community, the educational level of its population is indeed one of the most significant. In the years ahead, in New Bedford, the level of education of the population will have to increase. Good teachers, good schools, and a progressive community are intimately related.

We have made gains of which we can be justly proud. It is a pride in which all the people of our city may share, just as they must all share the responsibilities for our educational failures.

ANNUAL REPORT

DEPARTMENT OF ELEMENTARY EDUCATION

INTRODUCTION

Supervision of twenty-eight elementary schools is a king-size responsibility. The rapid change-over in our teaching personnel alone brings into the system each year many inexperienced teachers. This entails numerous group meetings and personal visits, without which many of the beginning teachers would not succeed. Classrooms in every building must be visited and grade meetings for teachers planned.

During an ordinary school year, Courses of Study and useful handbooks for both teachers and principals must be compiled, new textbooks must be selected, and much of our printed material revised and brought up-to-date. There are countless other time consuming tasks that are often forced to wait as parents, representatives of the numerous book publishing houses, prospective teachers, and principals and teachers with problems to discuss, all have to be met and helped in various ways.

Despite the many interruptions of our daily schedule of work, the year of 1963 saw many of the activities related above undertaken and accomplished as described herewith.

CURRICULUM IMPROVEMENT

Today's technological advances have opened up numerous opportunities for the boy and girl with mathematical ability. Changes being wrought at the upper levels of mathematics necessitate our taking a long, hard look at the arithmetic curriculum of the elementary school.

Because our world is rapidly changing, the traditional type of arithmetic we have been teaching and the methods employed in that teaching need some reforms. The trend is now toward a more meaningful and stronger curriculum.

With this in mind, we have placed in Grades Four, Five and Six this year, sets of Mathematics Enrichment books for supplementary work by the pupils. These same books were used as a trial series in our Enrichment Classes last

year and provided great stimulation and renewed interest in the subject of mathematics.

A tentative arrangement has already been made to have an arithmetic consultant from Harcourt, Brace & World Publishers, discuss Modern Arithmetic Teaching with all elementary teachers early in 1964. Several meetings requiring attendance of all teachers at various grade levels will be planned.

This year also, the Social Studies Committee on Text-books has met thus far with representatives from six leading book publishers with the purpose of selecting a social studies book for our children that best meets the criteria demanded of a modern social studies textbook. Several more meetings are planned by this Committee before a final selection of the book is made. This book will be adopted in 1964 if it is approved by the School Committee members.

In September 1963, all newly elected elementary teachers were supplied with a helpful booklet entitled, "Guide for New Teachers" which was compiled in this department.

At this same time, a revised Handbook for Elementary School Principals was distributed to all schools.

Requisition forms for seatwork and classroom supplies were also studied and changes made to up-date them.

The "Kindergarten Handbook for Parents" is another booklet which has been completely revised this year, and will be ready for distribution during our Kindergarten Registration period.

IN-SERVICE COURSES

Personnel development in current educational trends is of paramount importance if our children are to receive the best teaching that can be offered. With this in mind, two excellent In-Service Courses were offered to our elementary teachers. A Language Arts Course for teachers of Grades One to Three commenced at the beginning of the year and meetings were held for ten successive weeks. It provided teachers with methods of presenting the materials in our new Teachers' Guides in English and ways of correlating English with other subject matter. Forty teachers were enrolled.

At the opening of the fall term, Dr. Florence L. Mahon, Principal at the Betsey B. Winslow School, commenced a course in "Speech Correction, Principles and Methods" which was well attended by many elementary teachers.

A State University Extension Course in "Modern Mathematics" was also brought to New Bedford in October, and thus another opportunity was given for the professional improvement of our teaching personnel.

AREA MEETINGS

Twenty-six elementary school principals are bound to have many vexing problems arise which they are reluctant to discuss in large group meetings. Therefore, this year four small groups were formed and a meeting was scheduled for each, at which discussions on common issues were held. These meetings will continue to be held about four times a year and they should prove beneficial to the entire department.

REPORT CARDS

New and attractive report cards for all elementary grades were issued this year. It was the first revision of such cards in fifteen years, and this modernization makes the cards far more satisfactory from the standpoint of the teacher and much more meaningful to parents.

PHONICS

Better results in reading can be obtained if the study of phonics is included in the reading instruction period. At a national Conference on Reading last year, some of the nation's best known reading specialists agreed that "without phonics most children cannot become self-reliant, discriminating, efficient readers."

Although the teaching of phonics has always had a place in the teaching of reading along with sight words, great agitation for increased phonic instruction has become widespread.

In November 1963, we placed the first book of phonics in our kindergartens as an experiment, to see whether the children so taught will excel the following year in Grade One reading.

SUMMER SCHOOL

One of the important achievements this year was the opening of a most successful Elementary Summer School session for children attending Grade Three through Grade Six. A descriptive report was submitted earlier this year to the School Committee, with the recommendation that three buildings, one in each section of the city, be made available for the expansion of this program in July and August 1964.

SUBSTITUTES

The inferior quality of many of the substitute teachers whom we are forced to employ this year in an effort to cover all classrooms is not conducive to good academic learning situations. Although such persons may have had several years of college background, they are wholly unprepared in classroom organization and methods of teaching and discipline.

To combat this weakness in our substitutes, and in an effort to attract others to apply for this field of teaching, a Course for Substitutes has been planned and will be offered early in 1964.

RECOMMENDATIONS

1. The Elementary French program in our fourth to sixth grade classes continues to progress, and enthusiasm for this subject remains very high. However, the daily schedule for the two French teachers is extremely taxing as they are endeavoring to do the work of three instructors. Because I have observed the classroom work and schedules of these teachers, I recommend that another teacher of French be appointed for the elementary schools.
2. One of the outstanding and most progressive steps taken by members of the New Bedford School Committee in

1963 was to provide the money for a class for the emotionally disturbed children. This has been desperately needed for a long while. The ever increasing number of such children has produced great problems for classroom teachers in both elementary and secondary schools.

An intensive search will be made to find a well-qualified teacher to open this class in September 1964. However, in view of the fact that there will undoubtedly be an age range from seven years to fifteen years, may I urge the Committee to consider the appointment of a second teacher, who would teach only the secondary students, and thus allow for a separate elementary grouping.

3. There is still need for a Curriculum Co-ordinator in the Department of Elementary Education. Such a person could relieve the office of the assistant superintendent by assuming certain duties, and thus releasing her to better supervise all new teachers and to better plan for periodic meetings with all grade teachers.
4. The struggle to fill our classrooms with well-trained teachers is ever increasing. Until New Bedford offers a salary schedule that compares favorably with similar communities, this situation or predicament will continue to harrass the administrators who are endeavoring to secure only the highest type of teachers, well prepared and well recommended.

ANNUAL REPORT

NEW BEDFORD HIGH SCHOOL

The increase in enrollment at New Bedford High School continued this year for the seventh of the past eight years of the present administration of the school. The projected figures of September 1962 indicating an approximate enrollment of 2,600 pupils in 1963 resulted in the final figure of 2,654. Projected figures for September of 1964 at this time indicate an enrollment of 2,500. This decrease of 150 students will be due to the largest graduating class in the history of the school in June of 1964 — approximately 780 students. A reasonable projection of figures for graduating classes for the next several years would indicate that our enrollment will stabilize itself around the 2,500 figure. The larger graduating classes would appear to indicate that our "holding" power on students is increasing.

Since our eight period day now in its fifth year has been able to cope with this peak enrollment of 2,654, the fear of having to go on double sessions has been for all practical purposes eliminated. This does not mean that we will not continue to be overcrowded. It simply indicates that classes can be scheduled in a single session as long as our present academic program and extra curricula activities remain as at present. However, educational programs cannot progress and remain static at the same time. To repeat from the annual report of last year, a review of the Evaluation Committee Report of 1961 shows that approximately 85% of its recommendations for improvements were a result of our lack of space and facilities.

The physical condition of the school continues to be a credit to the maintenance department of our school system, and its cleanliness a result of the work of the custodial staff. With the replacement of our auditorium seats now definitely planned for the coming year, and the final installment of fire doors in the wells of all staircases in our East Building begun this past year, the next most important maintenance project within the building is the installation of a new bell system.

Few changes were made in the curriculum during the year for the reason indicated above. However, the depart-

ment heads and the faculty are not unaware of things to come. The following brief statements indicate the conditions within each department during the year of 1963.

ENGLISH

A continued pursuing, analyzing and perfecting of the changes initiated in the previous year is underway. A new vocabulary program is in the process of being tested. Committees are looking into the question of methodology, suggesting new approaches to the teaching of grammar, composition, and literature. A Book Fair is being planned to stimulate reading interest and the building of student libraries. Greater use of the closed circuit TV facility is also under consideration.

SOCIAL STUDIES

No changes in course offerings were made this year as the department moved under the new and promising leadership of John F. Robinson following the retiring of Carl F. Bergstrom last June. However, changes are in the offing including changing the name of the Problems of Democracy Course to Contemporary Problems, finding a more suitable World History textbook for the Business and General Curriculum, and searching for solution of the problem of presenting the evergrowing study of United States History in a one-year course.

MATHEMATICS

Two additional classes in honors mathematics have been added on the junior level, bringing the total to three — two accelerated and one enriched. To provide for these accelerated classes next year, an adjustment in the senior honors curriculum is now under consideration. Under consideration, too, is the possibility of requiring algebra in the Business Education Curriculum, and also the requiring of a second year of math in the General Course.

SCIENCE

Continuing purchases of new equipment under the provisions of Title III under the NDEA have permitted the in-

troduction of many new experiments in all fields, and enabled more students to participate in highly specialized projects. During the year our First Annual Science Fair was held with 118 students participating. Twenty of these were given awards for their exhibitions which were later presented at the Greater New Bedford Science Fair. Five of these winners went on to the Massachusetts State Science Fair and one to the National Science Fair at Albuquerque, New Mexico. An increasing use of the closed circuit TV facility is contemplated as the school year moves forward.

LATIN

Approximately 180 students are enrolled in Latin classes this year, a considerable increase over recent years. In all the courses students have been guided to look for and find in their readings the stress the ancient writers placed on nobility of purpose, patriotism, idealism, religious fervor, respect for parental authority, sense of responsibility which helped to build an empire, and which kept it strong, just as long as those characteristics prevailed. For the second year, Latin I is now available to Juniors of the non-classical groups, and the second year of the Latin Club is showing greater and greater promise.

FRENCH

During the year the main problems within the department have been adapting itself to the most effective use of the 15-position Language Lab with classes of thirty pupils and improving preparation for College Boards and College Placement Tests. The manning of the Lab by teachers assigned by the principal has proven to be effective as half of the class recites while the other half is in the Lab. A 30-position Lab in the future will be one more desirable step in the use of the modern facility. The recent introduction of French with some groups in an earlier grade in the junior high schools will introduce new problems in the fall of 1965. "Third level" books for "third track" students in the sophomore year will take care of these advanced pupils.

PORTUGUESE

There are twelve classes in the department this year with Portuguese IV being offered for the first time. The en-

rollment in Grades 11 and 12 in the Business Education Curriculum has remained satisfactory, but the same is not the case in the College Course. Since the inclusion of Portuguese I in Grade 9, the enrollment of students in Grade 11 for Portuguese I as a second foreign language has been disappointing. More guidance is needed in getting promising students, especially those with Portuguese backgrounds, to avail themselves of the unique opportunity open to them in the study of Portuguese, which is still in the pioneering stage as far as national need is concerned.

BUSINESS EDUCATION

The department this year was very fortunate in acquiring Miss Kathryn T. McCarthy with her wealth of experience as its new head to succeed Mr. James C. Comiskey who retired last June. With the increased registration in the school this year, the department was taxed to the limit in finding machines for the unprecedented number of pupils studying Typewriting. The continuous requests from the business offices for pupils to fill after school positions, proves that the department is fulfilling its purpose in educating students for meaningful and gainful employment in the community. Of significant mention also, is the increasing number of seniors who are interested in registering in colleges and schools of higher learning.

EXTRA-CURRICULAR ACTIVITIES

All of these many activities which aid in the all 'round development of our students have continued to grow not only in numbers within the various groups but also in the quality of their leadership. The latter has been due to the recognition given the sponsors by the Superintendent of Schools and the School Board.

CONCLUSION

This annual report must again conclude as have all my others since 1955 with the repetition that the housing situation of the High School must be remedied if we are to

provide for a comprehensive program. Many studies and many recommendations have been made and are under study, but action has yet to be taken. It is my humble belief that further studies are necessary, for it is not just a building that is to be considered in which to accommodate numbers, but a program of studies to meet the needs of our boys and girls in this fast moving world of automation. I would feel remiss if I were to conclude this report without noting this very important fact — that the New Bedford High School is by far the best building of our four secondary schools. May the year 1964 be the “year of decision”.

EMPLOYEES IN SERVICE

January 1, 1964

Teaching Corps:

Headquarters:	Superintendent	1
	Asst. Supt.	2
	Directors	7
	Assistants	17
High School:	Principal	1
	Asst. Principals	2
	Dean	1
	Dept. Heads	8
Junior High Schools:	Teachers	86
	Principals	3
	Asst. Principals	3
	Dept. Heads	2
Elementary Schools:	Teachers	148
	Principals	25
	Teachers, Grade 1-6	302
	Special Teachers	32
Adult Education:	Kindergartens	29
	Director	1
	Teachers	2
High School Guidance and Placement:	Director	1
	Counselors	4
Pupil Personnel Services:	Director	1
	Asst. Psychometrist	1
	JHS Guidance	6
	Elementary School Ad- justment Counselors	2
	Special Teachers	6

TOTAL

693

Civil Service Corps:

Clerks	25
Physician	1
Nurses	12
Attendance Supervisors	4
Building Maintenance Foreman	1
Mechanics	12
Supervisor of Custodians	1
Senior Building Custodians	19
Junior Building Custodians	27
Junior Building Custodians Unassigned	16
Janitresses	19
Cafeteria Supervisor	1
Managers	6
Cooks	4
Helpers	35 (5*)
Cashiers	7*
	<hr/>
	190 (12*)

Miscellaneous Employees:

Accompanist	1*
ROTC Sergeant	1*
<hr/>	
TOTAL NUMBER EMPLOYEES	883 (14*)

* *Part time only*

TUITION RATES

Rates of tuition for non-resident pupils for school year beginning September 1, 1963, payable in advance are:

High School	Year	\$375.00
Junior High)		
Sight Saving)		
Special Class)	Year	325.00
Work Shop)		
Elementary	Year	250.00
Kindergarten	Year	125.00
Evening School	Night	.50
Evening High Extension Program	(per class)	18.00

PER CAPITA COSTS

The cost of instruction per scholar for Day Schools is based on the average number belonging and the total amount expended from taxation money, not including expenditures from the Sylvia Ann Howland, Paisler, Bourne Prize, Etta Abbott Smead, Brooks or Campbell Funds.

	Gross Cost	Net Cost (after state reimbursement)
High School	320.61	264.07
Junior High School	330.31	272.61
Elementary Schools	356.23	299.27
Average for Day Schools	344.60	287.54

The average cost per pupil in the Day School, for text books and supplies, has been as follows:

High School	\$11.87
Junior High Schools	10.73
Elementary Schools	6.85
Average for Day Schools	8.54

RECEIPTS AND EXPENDITURES

Money raised by Taxation

January 1, 1963 — December 31, 1963

SUMMARY

ANNUAL REPORT

of the

COMMISSIONER

of

PUBLIC WORKS

of the

CITY OF NEW BEDFORD, MASS.

to the

CITY COUNCIL

1963

BRADBURY-WARING, INC.
New Bedford, Mass.
1964

COMMISSIONER'S REPORT

February 21, 1964

Honorable Mayor and City Council
New Bedford, Massachusetts

Gentlemen:

In compliance with Chapter 3, Section 58 of the City Code, I herewith submit the annual report of the Department of Public Works for the year ending December 31, 1963.

Appropriations and expenditures are shown in the various tables, together with a chart indicating the comparative Highway expenditures for the period from 1921 through 1963.

NEW EQUIPMENT — Additional expenditures were made to the extent of \$224,172.40 from the 1962 Highway New Equipment Loan account. These expenditures are listed in detail elsewhere in this report. Additional purchases are contemplated in 1964.

CHAPTER 90 — The rebuilding of Shawmut Avenue, from Hathaway Road to the Municipal Airport, was completed in 1963. A section of Braley Road, from Acushnet Avenue westerly to the Industrial Park, was also rebuilt. J. F. Simmons & Sons, Assonet, Massachusetts was the contractor for both projects.

Under Chapter 782, Acts of 1962, the City of New Bedford received from the Commonwealth the sum of \$164,441.00. This amount was allocated to certain streets for improvement. Various streets were resurfaced, as listed, to the extent of \$92,004.24.

I wish to express my appreciation for the cooperation that I have received from His Honor, Mayor Edward F. Harrington, the members of the City Council, the various department heads, and my own capable assistants in carrying on the work of the department.

Respectfully submitted,

EDMUND J. TOOMEY

Acting Commissioner

ENGINEERING DIVISION — 1963

AIRPORT COMMISSION — Plans were drawn and surveys made in connection with airport boundaries.

ASSESSORS — Real Estate transactions and transfers were filed at the Registry of Deeds. Such transfers were changed on city plots and indexed. Two sets of 173 plots are kept up to date and blueprints made of same.

BOARD OF APPEALS — Twenty-one surveys and plans were drawn and records kept.

BUILDING DEPARTMENT — Lines and grades were given for 247 new buildings. The buildings were numbered and records kept.

CITY SOLICITOR — Plans and blueprints were made and descriptions were written on request of City Solicitor for the sale of City owned land and acquisition by Eminent Domain.

CURBING — Lines and grades were given for setting 3,644 lineal feet of curbing. Inspection and measurement was made of the same.

HARBOR DEVELOPMENT COMMISSION — Plans were drawn and surveys made for the development of the new industrial area along the waterfront.

HOUSE DRAINS — One hundred and sixty-six (7,171 feet) new house drains and one relay were laid connecting house sewer and surface pipes with the main sewer. Locations of these drains were measured, records were made of the same and drawn on drain plots.

INDUSTRIAL PARK — The Engineering Division worked in close cooperation with private engineering companies in the development of the Park.

PLANNING BOARD — (Zoning) Fifteen plans for zoning changes were made and lists of abutters made and reported.

PARKING METERS — Nine surveys and plans were drawn for new meters and removal of meters. Surveys were made for No Parking signs and laying out stalls for No Parking areas.

PARK BOARD — Plans and surveys were made for a tennis court and also plans for Sylvan Grove Park.

SEWERS — Surveys, plans, lists of abutters, assessments, and specifications were made for thirteen new sewers and five new surface drains. Construction costs, inspection, lines and grades were given for 6,465.20 feet of sewers and 2,480.56 feet of surface drains. Records of construction, final plans, and final assessments were made and reported.

SIDEWALKS — Surveys, plans and estimates were made for thirty projects under the Betterment Act. Measurements, records, final plans, and assessments were made and reported. Plans and estimates were made for 181 projects laid by bonded private contractors for property owners.

STREETS — Surveys were made and plans drawn for the acceptance of 23 new streets and one street line alteration. Lines and grades were given for all street construction and public utilities construction. Surveys were made and points set for the installation of new street bounds.

TRAFFIC COMMISSION — Surveys were made and plans drawn. Traffic counts were made at twenty-eight intersections.

ROUTE 195 — The Engineering Division co-operated with State and Federal District Engineers, private En-

gineers and also with private contractors on the proposed projects.

HURRICANE BARRIER — The Engineering Division co-operated with the Corps of Engineers and private engineers on the proposed projects. Some land was also taken for this project.

WATER BOARD — Lines, grades, engineering and survey information as required were given for all water main extensions.

MISCELLANEOUS — Lines and grades were given for fences, street lines, and sidewalks. Fifty-three accident or damage sites were surveyed. Plans were drawn to prepare for possible court action. Numerous plans were drawn and descriptions prepared for study by the City Council Committees, and the City Solicitor. Coggeshall Street Bridge, at present, is being rebuilt under the direction of the Massachusetts Highway Division of the State Department of Public Works.

Weather records were kept daily on rainfall, snowfall, wind velocity, temperature, and tides. This weather information was reported to State and Federal agencies and was made available to the public. Records were kept of street sweeping and ash collections. The area of cuts in pavements and walks were measured and recorded. City maps and plans were kept up to date, blueprinted and indexed.

GENERAL STATISTICS

January 1, 1964

Set off from Dartmouth	1787
Incorporated as a City	1847
Length of City	10.78 miles
Breadth of City (Maximum)	3.10 miles
Highest point	1250 feet north of Rockdale Ave. and Hathaway Road. Elevation 181.50 feet
City Datum	Based on 0.85 ft. above mean high water
State Datum	Based on mean sea level 2.55 feet below City Datum
Geometrical Center of City	Nash Road and Mt. Pleasant St.
Area — Land	12,241 acres
Ponds	193 acres
Land — Ponds	12,434 acres — 19.42 sq. miles
Tidal Water	8,451 acres — 13.21 sq. miles
Length of frontage on tidal waters	10.13 miles
Depth of main channel	30 ft. at low water
Average rise and fall of tide	3.60 ft.
Population — Registrar of Voters estimate	100,987
Assessed valuation	\$154,514,700
Assessed valuation per capita	\$1,539.05
Accepted streets — Area 1,428,401 Acres	242.186 miles
Bridges (3)	0.796 miles in New Bedford
Sewers	259.701 miles
Length of Intercepting Sewer:	
Outfall	0.626 miles
Intercepting	9.188 miles
16 Public Parks	288.80 acres
14 Public Playgrounds	31.72 acres
1 Rifle Range	230.35 acres
7 Parking Lots	5.81 acres
32 School Buildings — Area of Grounds	116.60 acres
1 Airport — Area of Ground	829.93 acres
Area of Easement	118.67 acres
5 Wharves — and other waterfront land (Harbor Development Comm.)	72.000 acres

Appropriation — 1963	70,000.00

	\$234,775.60
Expenditures — 1963	224,172.40

	\$ 10,603.20

EXPENDITURES

Sand spreaders (3) Hydro, Model B	3,675.00
Portable gasoline drill — Pionjar	957.95
Sign applicator and material — Minnesota Mining	2,670.82
Sign plates, posts, etc. — Municipal Signal Co.	3,276.50
Power line for sign machine — King & Co.	491.92
Homelite gasoline saw — 770G #10	328.31
Homelite gasoline saw — 770D #62	281.30
Arlo tree crane — P. C. Gould Co.	11,412.10
Chassis for Arlo tree crane — Ford F700	3,928.09
Paving breakers (2) — Rock drills (2) — Clay diggers (2)	2,346.00
Air Compressor — Ingersoll Rand — “Gyro-Flo”	3,817.00
Homelite diaphragm pump — 3”	387.10
Litter baskets (30) — Dyar Sales Co.	411.60
Mobile radio units (6) — Motorola Co.	5,460.56
Chain link fence — Garage	626.22
Chain link fence — City Yard	185.00
Dump trucks (2) Mack — 5 yd. — Marion Bodies	19,733.58
Dump trucks (2) Ford F950 — 5 yd. — Gar Wood Bodies	17,069.64
Refuse Collection bodies (4) — Leach	23,755.20

Truck chassis for Refuse Coll. bodies (4)	
Ford C950	29,009.10
Tire changes for Refuse Coll. chassis —	
N. B. Tire Co.	493.56
Line Construction body — Reading —	
Seguin Body Co.	2,993.90
Chassis for Line Const. body — International	3,433.00
Low Bed Trailer — 35 Ton Capacity — Schertzer	6,463.10
Tractor for Low Bed Trailer — Ford F1000	8,328.65
Elgin Street Sweepers (2)	26,264.00
Crawler type front end loader — Caterpillar	27,645.80
“U” type bulldozer blade and trash guard for	
Crawler type front end loader	2,190.30
Snow plows (6) — Baker-Flink — Dyar Sales Co.	5,439.00
Traffic line marker — Wald	1,250.80
Motor truck scale — 50 Ton capacity — Toledo	9,666.00
Set of snow blower controls — Wausau	181.30

	\$224,172.40

RECORD OF TIDES - 1963

MONTH	HIGH TIDES			LOW TIDES			AVERAGE RANGE
	AVERAGE	HIGHEST	LOWEST	AVERAGE	HIGHEST	LOWEST	
JANUARY	-0.50	+2.20	-1.90	-4.34	-3.20	-5.80	3.84
FEBRUARY	-0.81	+0.30	-3.30	-5.50	-3.30	-5.70	4.69
MARCH	-0.53	+1.60	-1.70	-4.09	-2.60	-5.40	3.55
APRIL	-0.33	+1.70	-1.50	-5.21	-3.10	-5.50	4.87
MAY	-0.55	+0.80	-1.40	-4.23	-3.40	-5.50	3.68
JUNE	-0.26	+1.10	-1.50	-4.01	-3.40	-4.80	3.76
JULY	-0.20	+1.30	-1.50	-3.85	-2.40	-4.40	3.65
AUGUST	-0.30	+0.70	-1.50	-4.01	-3.20	-4.90	3.70
SEPTEMBER	-0.27	+1.40	-1.50	-3.01	-3.00	-4.70	2.74
OCTOBER	-0.29	+1.90	-1.70	-4.48	-3.20	-5.10	4.19
NOVEMBER	-0.31	+4.40	-1.70	-4.21	-3.10	-5.60	3.90
DECEMBER	-0.42	+1.30	-2.30	-4.13	-3.10	-6.00	3.72
Average for year	-0.40			-4.26			3.86
Extreme for year		+4.40	-3.30		-2.40	-6.00	

All figures above refer to "mean high water" which is 0.85 feet below City Datum.

Observations for the last 65 years indicate that:

Average high water is 0.665 below City Datum.

Average low water is 4.158 below City Datum.

Average range of tide is 3.60

WATER BOARD REPORT

April 23, 1964

To the Mayor and City Council
of the City of New Bedford

Gentlemen:

In accordance with the provisions of Chapter 23, Section 3-2312 of the City Code of New Bedford, the Water Board herewith respectfully presents this, its ninety-fourth annual report, covering its operations for the calendar year 1963, and including the reports of the superintendent and water registrar.

In May, Mr. Nathan S. Ellis, who had served as Superintendent of the Department since January, 1961, resigned to accept position as Commissioner of Public Works in Falmouth. His resignation was accepted with regret.

Mr. George H. Brightman, general foreman, was named Acting Superintendent pending establishment of an eligible list and appointment therefrom.

Mr. Edward V. Peters, water construction foreman, was appointed acting general foreman to fill vacancy created by appointment of Mr. George Brightman as acting superintendent.

Mr. Milton E. Ashley, civil engineer grade 4, resigned as of May 31, 1964, after completing twenty years of service in the department. The members of the Board take this opportunity to extend to Mr. Ashley their appreciation of his many years of faithful service in the department.

The average daily consumption for the year was 19,066,720 gallons, a slight increase over 1962.

The ordinary receipts amounted to \$767,639.04, an increase of approximately \$24,000 over 1962. However, overall expenditures of the department, including bond payments and interest on bonds, amounted to \$788,844.31, leaving a deficit of \$21,205.27.

The water debt as of December 31, 1963, is \$2,048,000.00.

Bonds in the amount of \$100,000, the balance remaining in Water Loan No. 1 of 1961 for pipe and fittings and new equip-

ment, were sold during the year, the proceeds being used to purchase much-needed material for extensions of mains and services.

Also bonds in the amount of \$60,000, balance remaining in Water Loan No. 1 of 1958, were sold for the purchase of new meters.

In July, it was voted to purchase approximately 63 acres of land bordering Black Brook in the Town of Middleboro for \$2,000.00. This land was owned by Henry B. and Grace Hartley.

Camp, Dresser and McKee of Boston, consulting engineers, were hired to make analysis of the water supply, with regard to color and corrosiveness. As a result of their study, they submitted report recommending installation of equipment for introduction of sodium carbonate into the water supply to combat the high acidity in the water, and institution of program over a ten-year period for relining of existing mains.

Because the Water Department Repair Shop and Pipe yard at 213 No. Water Street will be in the path of the down-town connector of Federal Highway 195, several sites were inspected for relocation. Shawmut Avenue north of Hathaway Road, was selected as site for proposed new shop and pipe yard. In connection with this, it was voted to request that application be filed with the Community Facility Administration for planning advance to prepare preliminary finals for construction of shop and yard.

The following abstract from the water registrar's report shows in condensed form the financial operations of this department during the year. Full details will be found in his report, which accompanies this.

FIRST, BASED ON THE BUDGET SYSTEM IN ACCORDANCE WITH CITY AUDITOR'S ACCOUNT

	Salaries & Wages	Labor	General Expense	Out of State Travel	Pensions	Total
1963 Budget	\$163,610.00	\$171,122.50	\$130,046.60	\$3.50	\$31,320.47	\$496,103.07
1962 Encumbrances			8,029.52			8,029.52
Refunds			277.84			277.84
Total	163,610.00	171,122.50	138,353.96	3.50	31,320.47	504,410.43

REPORT OF THE SUPERINTENDENT

May 1, 1964

To the New Bedford Water Board

Gentlemen:

The annual report of the superintendent on operations of the department for the year 1963 and on the general condition of the works is respectfully submitted.

The financial report of the water registrar, rainfall records, and the usual tables showing in detail the work of the department, are incorporated as part of this report.

RAINFALL

Total rainfall for the calendar year 1963 was recorded at Quittacas Pumping Station as 41.04 inches, 10.8% lower than the average for the past sixty-nine years.

POND ELEVATIONS

The water levels in the Lakeville Ponds reached the following elevations during 1963:

	High Level	Low Level
Pocksha Pond	51.95 April 3	49.33 October 23
Great Quittacas Pond	51.95 April 3	48.93 October 23
Little Quittacas Pond	48.31 December 11	46.71 July 24

WATER TREATMENT

All water pumped during the year was sterilized through the addition of liquid chlorine at the rate of 10 pounds in winter to 20 pounds in summer to one million gallons (8,330,000#) of water.

All water coming into the City of New Bedford is treated with chlorine at the Quittacas Pumping Station and at High Hill Chlorine Plant.

1963 — A DEFICIT YEAR

The financial report of the New Bedford Water Department for the year 1963 is shown in detail in the various sections of the water registrar's report contained herein. It will be noted that the Water Department operated under a deficit of \$21,205.27 for the year 1963.

REPORT ON WATER QUALITY IMPROVEMENT

Mayor Edward F. Harrington entered into an agreement with the firm of Camp, Dresser and McKee on February 26, 1963. They made an engineering investigation for the purpose of developing preliminary plans for improving the quality of the New Bedford Municipal Water Supply.

FUTURE WATER SUPPLY NECESSITY

The New Bedford Water Board should take necessary steps to insure an adequate future supply at the present intake works, by re-opening negotiations with the City of Fall River to bring to effect a release by Fall River of all rights to water from Long and Assawompsett Ponds.

STORAGE YARD AND BUILDING

The New Bedford Board of Health transferred a plot of land located on Shawmut Avenue just north of the railroad tracks to the Water Department for the new location of the Maintenance Buildings and Storage Yard.

With the aid of Robert Stewart, assistant city planner, a draft was prepared and sent to Washington, D. C., requesting Federal Funds to hire an architect to prepare plans for a new Storage Yard and Maintenance Buildings.

INTERSTATE HIGHWAY ROUTE 195 and 140

The office staff of the Water Department has been kept very busy throughout the year working with State and Federal engineers on project plans pertaining to the Interstate Highway. Part of the highway project will involve lowering the 42" feeder main at two locations and the lowering of the 30" feeder main on Mt. Pleasant Street. A large number of water meters had to be removed and services shut off.

HURRICANE BARRIER

Water Department employees were involved in all relocations of water services and water mains in the south end of the city due to the installation of Hurricane storm gates and large storm sewers. This project cost the Water Department an estimated \$15,000 in stock from the storage yard, material bought, labor, supervision and use of equipment. The City of New Bedford will receive credit for this amount upon completion of the barrier.

FLUSHING

The system was completely flushed by hiring temporary employees during the summer months. The flushing crew reported some hydrants in need of repair and the finding of some main gates that they could not operate. All waste gates throughout the system were operated at least once.

DISTRIBUTION SYSTEM

The demand for extensions of new water mains and household services continued at a high rate throughout the year.

The department hopes to sponsor a program for cleaning and cement lining in place of all the unlined cast iron water mains in the distribution system. The program has been designed to complete the job over a ten year period. The recommended work for each year has an estimated cost of about \$200,000. Included in this program would be the replacing of all valves not functioning properly.

It was discovered that with the 12 inch water main shut off on East Rodney French Boulevard during July and August, the mills in that area were having trouble getting enough water to operate efficiently. It is my opinion that in the very near future it is going to be necessary to extend the 16 inch water main in Brock Avenue southerly to the Point Road.

The 8 inch water main on Harbor Street between Cove Road and Gifford Street is creating a problem for the Berkshire-Hathaway Mills because it is only delivering water at 35% of its capacity. The main in Jouvette Street was laid in 1896 and is delivering water at only 25% of its capacity. Years ago 4 inch cast iron pipe was installed in many of the streets in the Wood Street area.

This is now creating a problem for the people in that area and for the department.

In the Sassaquin area near the New Bedford-Freetown line, a serious problem exists. The 48 inch water main should have two 36 inch valves inserted in the transmission main between the City line and Beaver Dam on Route 18. Also the main in this area is subject to severe water hammer occasionally which can cause serious trouble if not corrected.

Forty-nine hydrants have been damaged as a result of traffic accidents. This in itself is creating quite a maintenance problem due to the fact that it is necessary to call men out to repair them as the biggest percentage is broken at night and weekends.

The total cost of repairs was \$6,126.60 and \$2,895.31 has been collected.

The personnel of the maintenance department can not continue to keep abreast with new construction, laying water mains, repairing service leaks, etc., without at least five more men being added to its maintenance force of twenty men.

LEAKS

There have been nineteen leaks on main pipe during the year, as herewith shown.

Date	Size	Location	Cause	Cost
Jan. 14	1½"	Cox St., 29.0' W x Mt. Pleasant St.	Main leak	\$ 78.33*
Jan. 18 thru 26	8"	Acushnet River—submarine main— 150.0' E x Fish Island Bulkhead	Main leak	4,520.25
Feb. 28	8"	Spruce St., 18.5' N x S line Hillman St.	Cracked pipe	145.99*
May 17	12"	Rodney French Blvd. West, W x E Curb S. x David St. 12.5'	Joint leak	107.22*
July 25	6"	Ashley Blvd., 17.5' S x Cedar Grove St.	Joint leak	50.92*
Aug. 16	6"	Union St., 44.3' E x E line Front St.	Split pipe	154.81*
Aug. 29	16"	Cedar St., 7.0' N x N line Locust St.	Cracked main	320.77*
Aug. 29	8"	Shawmut Ave., 88.5' N x N line Aus- tin St.	Main leak	67.68
Sept. 6	6"	Gifford St., 299.0' E x E line Har- bor St.	Joint leak	55.34*
Oct. 3	6"	Church St., 504.3' N x Irvington St.	Cracked main	29.19
Oct. 4	6"	Gifford St., 299.0' E x E line Harbor St.	Joint leak	54.38*
Oct. 10	6"	Gifford St., 228.3' E x Harbor St.	Main leak	178.95*
Oct. 14	6"	Intersection of Orleans and Dawson Sts.	Main leak	85.64*
Nov. 18	6"	Lawrence St., 133.0' S x Holyoke St.	Broken main	79.12
Dec. 9 and 10	8"	Holly Tree Lane, 180.0' W x Hillcrest Rd.	Broken main	318.58
Dec. 14	6"	Pierce St., 175.8' N x Court St.	Cracked main	173.08*
Dec. 17	8"	Cleveland St., 40.3' N x Clara St.	Cracked main	146.40*
Dec. 19	8"	Howland Way, E x Cape St.	Cracked main	149.16*
Dec. 23	8"	Matthew St., 405.0' W x Rockdale Ave.	Main leak	217.31*

*No actual payment made for cost of street repairs.

11,370 feet of distribution pipe, in sizes from 4 inch to 16 inch, were added to the system during the year and 739 feet removed.

329 feet of distribution pipe less than 4 inches have been laid and 0 feet removed. The total length now in use is 11,629 feet.

Fifty-two stop gates have been set and one of those previously set has been removed. The total number now in use is 3,699.

The total number of small size gates now in use is 95.

The total number of waste gates now in use is 228.

The total number of air taps now in use is 228.

Twenty-nine private gates have been set and five of those previously set have been removed. The total number now in use is 1121.

Twenty-five new hydrants have been set and three of those previously set have been removed. The total number now in use is 2,163.

The total number of water cart hydrants now in use is 21.

The total number of sprinkler cart hydrants now in use is 8.

Two hundred sixty-six service pipes have been laid and eighty of those previously laid have been removed. The total number now in place is 23,459. Of this number, three hundred sixty-one are unmetered fire services, nineteen thousand eight hundred seventy-eight are metered, and the balance, three thousand two hundred twenty are not in use.

Four hundred thirty-one service leaks have been repaired.

Two hundred forty-five taps have been cleaned as follows:

Rust 165; trouble inside 80.

One thousand eight hundred thirty-three meters have been removed for repairs, and one thousand five hundred seven have been reset. Also two hundred thirty-two new meters have been set for the year, making the total number in use 19,878.

CONSUMPTION OF WATER

The consumption of water for the year has been as follows:

Month	Monthly Consumption				Daily Average
	New Bedford	Dartmouth	Acushnet	Total	Consumption
1963	Gallons	Gallons	Gallons	Gallons	Gallons
January	592,172,200	546,800	6,141,000	598,860,000	19,318,065
February	523,369,000	529,500	7,231,500	531,130,000	18,968,929
March	574,191,650	391,850	5,418,000	580,001,500	18,709,726
April	556,207,200	507,750	5,670,750	562,385,700	18,746,190
May	561,190,650	1,145,650	5,829,000	568,165,300	18,327,913
June	592,197,350	3,561,700	6,124,250	601,883,300	20,061,110
July	637,022,500	18,826,250	9,312,750	665,161,500	21,456,823
August	625,100,950	15,333,900	10,247,250	650,682,100	20,989,778
September	546,242,400	6,469,500	8,494,500	561,206,400	18,706,880
October	576,627,250	522,550	6,813,000	583,962,800	18,837,510
November	502,355,900	555,000	5,830,500	508,741,400	16,958,047
December	540,084,200	459,450	6,629,250	547,172,900	17,650,739
Totals	6,826,761,250	48,849,900	83,741,750	6,959,352,900	
Averages					19,066,720

Maximum daily consumption — (24 hrs.) — July 2629,123,800

Minimum daily consumption — (24 hrs.) — Dec. 2511,214,200

Average daily consumption — 6 a.m. to 6 p.m.11,229,862

Average night consumption — 6 p.m. to 6 a.m.7,836,858

Amount of water consumed shown on above table includes the supplying of about 122.52 miles of distribution pipes located in the adjoining towns of Dartmouth and Acushnet. Dartmouth supplies 13,050 consumers through 4,350 taps. Acushnet supplies 5,380 consumers through 1,312 taps.

*Includes population supplied in towns of Dartmouth and Acushnet 5,662 taps, 18,430 consumers.

‡This consumption is for eleven months.

†This consumption is for thirteen months.

CONSUMPTION

The average daily consumption, 19,066,720 gallons, shows a slight increase over 1962.

The following table shows the number of accounts, registration and income in the several steps of the sliding scale of rates:

DATA ON METERED CONSUMPTION AND REVENUE
July 1, 1962 through June 30, 1963

	No. of Accounts	Number of gallons		Per Account	Per day per Acct.	Receipts for metered water		
		Total Gallons				Total Receipts	Per Account	Per M gals.
*Using less than minimum rate viz; 30,000 gallons per year	3,624	71,037,000		19,601	54	30,281.43	8.35	.426
Using over minimum rate but less than 75,000 gallons per quarter	15,878	1,325,912,250		83,506	229	265,949.55	16.75	.201
Using between 75,000 and 750,000 gallons per quarter	440	337,754,250		767,623	2,103	59,420.32	135.04	.176
Using between 750,000 and 7,500,000 gallons per quarter	96	644,277,750		6,711,226	18,387	93,364.58	972.54	.145
Using between 7,500,000 and 15,000,000 gallons per quarter	4	126,573,000		31,643,250	86,693	14,580.36	3,645.09	.115
Using over 15,000,000 gallons per quarter	15	4,066,471,500		271,098,100	742,734	149,070.54	9,938.03	.036
Totals and averages	20,057	6,572,025,750		327,667	897	612,666.78	30.54	.093
Town of Dartmouth Venturi Meter	1	22,900,900			62,742	2,674.92		.117
Town of Acushnet — special rate	1	58,468,500			160,188	6,956.86		.119
**City of New Bedford Departments Metered Water Department Use		49,554,000						
		22,042,500						
Grand Totals	20,059	6,724,991,650				\$622,298.56		

*Includes special assessments accounts

**Not charged to City of N. B. Depts.

As Acting Superintendent, I wish to express my appreciation for the help received from the Mayor, the Water Board, the members of the City Government, and particularly to the employees of the Water Department for their continued and wholehearted support.

Respectfully submitted,

George H. Brightman

Acting Superintendent

Cast Iron, 3 inch	2	46
Totals	266	12805

Two 1 inch heavy lead services have been removed and replaced with 1 inch copper services.

Three 1 inch light lead services have been removed and replaced with 1 inch copper services.

Thirteen ½ inch heavy lead services have been removed and replaced with ¾ inch copper services.

Twenty-nine ⅝ inch heavy lead services have been removed and replaced with ¾ inch copper services.

Thirty-two ⅞ inch light lead services have been removed and replaced with ¾ inch copper services.

Twenty-two ¾ inch light lead services have been removed and replaced with ¾ inch copper services.

Three 2 inch cast iron services, one 4 inch cement asbestos service, one 1 inch heavy lead service, thirteen ½ inch heavy lead services, nineteen ⅝ inch heavy lead services, one 1 inch light lead service, twenty-five ⅞ inch light lead services, eight ¾ inch light lead services, eight ¾ inch copper services and one 1 inch copper service have been removed.

Two connections have been made to services.

The following extensions were made to services by takers:

643 ft. 1 inch copper tubing and 267½ ft. of ¾ inch copper tubing.

Length of service pipe laid during the year	10,462½ ft.
Number of services laid in 1963	266
Number of services removed	80
Number to be added	186

SUMMARY OF STATISTICS

FOR THE YEAR ENDING DECEMBER 31, 1963

IN FORM RECOMMENDED BY THE NEW ENGLAND
WATER WORKS ASSOCIATION

NEW BEDFORD WATER WORKS

NEW BEDFORD
BRISTOL COUNTY, MASS.

GENERAL STATISTICS

Population by census of 1963 — 100,987.

Date of construction, 1866 to 1869, inclusive. Further supply, 1895 to 1899 inclusive.

By whom owned, City of New Bedford.

Source of supply.—Water was first introduced on Nov. 26, 1869. From that date until July 10, 1899, the supply was taken from a storing reservoir artificially formed by constructing a dam across the valley of the Acushnet River, seven miles north of the centre of the City. This supply was augmented by a connection made in 1886 with Little Quittacas Pond.

Since July 10, 1899, the whole supply has been taken from Great and Little Quittacas Ponds, eleven miles north of the centre of the city.

In 1926, under Legislative Authority to take 11½ million gallons of water per day from Long, Assawompsett and Pocksha Ponds, a connection was made to bring water from Pocksha into Great Quittacas Pond, when needed.

Mode of supply.—Previous to July 10, 1899, the water flowed by gravity from the Acushnet Storing Reservoir (grade 40' + high water New Bedford Harbor) through a brick conduit 3 feet wide, 4 feet high, 5 6/10 miles long to a receiving reservoir (capacity 3 million gallons; grade 30') located opposite the Purchase Street Pumping Station. Thence it was pumped into the Mt. Pleasant Distributing Reservoir (capacity 15 million gallons; grade 154') located 1,879 feet distance, from whence it flowed by gravity into the city's distributing system.

Since July 10, 1899, the entire supply has been pumped from Little Quittacas Pond (grade 52'). It is pumped through two 48 inch force mains 8¼ miles long to a distributing reservoir (capacity 67 million gallons; grade 216') located upon High Hill, in the town of Dartmouth. From this reservoir, it flows into the city's distribution system by gravitation through two 36 inch cast iron pipes averaging 4 1/17 miles in length and one 42 inch pre-cast concrete pipe following a different course and approximately the same length. The concrete transmission line was put into operation in 1958.

It is also possible to pump directly to the city through a 48" and 36" main using the reservoir as a balance. This latter connection was completed in 1922.

The first named system is not now in use.

PUMPING STATISTICS

LITTLE QUITTACAS STATION

1. Builders of Pumping Machinery.

Electric Units

- No. 1 10 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, driven electrically by 400 H. P., 3 phase, 4160 volt, 60 cycle synchronous motor with special step windings manufactured by the Electric Machinery Company.
- No. 2 Duplicate of No. 1.
- No. 3 15 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, electrically driven by 600 H. P., 3 phase, 4160 volt, 60 cycle synchronous motor with special step windings manufactured by the Electric Machinery Company.

The three foregoing pumps are controlled by switches and automatic starting equipment in a switchboard manufactured by the Electric Machinery Company.

- No. 4 30 million gallons per day centrifugal pump manufactured by DeLaval Steam Turbine Company, directly driven by 950 H. P. Baldwin locomotive type 6 cylinder supercharged Diesel engine, 600 R.P.M., manufactured by the Baldwin Locomotive Company.

Electric current purchased off New Bedford Gas and Edison Light Company.

Total installed capacity, 65 million gallons per day.

LITTLE QUITTACUS STATION — Pump 4 "Diesel"

2. Description of fuel used.

- a. No. 2 Diesel oil.
- b. Brand of oil — various.
- c. Price of oil per gallon — delivered to Little Quittacas Station 10.44 cents.

3. Oil consumed for the year — 20,220 gals.
4. Total pumpage for the year — 395,460,000 gallons by Venturi meter.
5. Average static head against which pumps work — 172.0.
6. Average dynamic head against which pumps work — 197.0.
7. Number of gallons pumped per gallon of fuel oil — 19,558 gals.
8. Number of gallons raised 100 feet per gallons of fuel oil — 38,529 gals.
- 9a. Cost per million gallons raised into High Hill Reservoir — \$11.67.
- 9b. Cost per million gallons raised into High Hill Reservoir — diesel fuel only — \$5.34.

LITTLE QUITTACAS STATION — Pumps 1, 2, 3

10. Total pumping time for the year 12,835 hrs.
11. Total current used for the year 4,690,875 K.W.H.
12. Total pumpage for the year 6,565,750,000 gallons.
13. Number of gallons pumped per K.W.H. 1,399.
14. Number of K. W. H. required to raise one million gallons into High Hill Reservoir 714.
Cost per K. W. H. varies in accordance with amount consumed.
15. Average cost per K. W. H. \$.0113.
- 16a. Cost per million gallons raised into High Hill Reservoir, (Pumps 1, 2, 3) \$18.45.
b. Per power only \$8.11.
Total cost of pumping, figured on pumping station expenses, viz: \$125,743.05.
17. Per million gallons pumped \$18.06.
18. Per million gallons raised one foot (dynamic) — 10 cents.
Cost of pumping figured on total maintenance and interest on bonds (see financial CC + DD) less credits, viz: \$529,990.24.
19. Per million gallons pumped \$76.14.
20. Per million gallons raised one foot (dynamic) — 41 cents.
Cost of pumping figured on total maintenance, interest on bonds and bond payments (see financial CC + DD + EE) less credits, viz: \$746,990.24.
21. Per million gallons pumped \$107.31.
22. Per million gallons raised one foot (dynamic) — 57 cents.

WATER REPORT

69 y

STATISTICS OF CONSUMPTION OF WATER

1. Estimated total population at date (New Bedford)100,987
 Acushnet 6,380, Dartmouth 16,000*123,367
2. Estimated population on lines of pipe*122,500
3. Estimated population supplied*122,500

Year July 1, 1962 through June 30, 1963

4. Total consumption for the year6,997,093,000
5. Passed through meters 6,724,991,650
6. Percentage of consumption metered96%
7. Average daily consumption18,424,634
8. Gallons per day to each inhabitant*149
9. Gallons per day to each consumer*154
10. Gallons per day to each tap (active)*711
11. Average rate received per million gallons metered\$92.54
12. Average rate received per million gallons consumed\$88.91

Year January 1, 1963 through December 31, 1963

13. Cost of supplying water, per million gallons consumed figured on
 total maintenance (item CC) less credits\$ 65.53
14. Cost of supplying water per million gallons consumed figured on
 total maintenance plus interest on bonds (CC + DD) less
 credits\$ 76.16
15. Total cost of supplying water per million gallons consumed figured
 on total maintenance, plus interest on bonds and bond
 payments (CC + DD + EE) less credits\$107.37

*Includes population supplied in the towns of Dartmouth and Acushnet.

STATISTICS RELATING TO DISTRIBUTING SYSTEM

MAINS

1. Kind of pipe cast iron and steel.
2. Sizes, from 4 inch to 48 inch.
3. Extended 11,370 feet during the year.
4. Discontinued 739 feet during year.
5. Total now in use 259.366 miles.
6. Cost of ordinary maintenance per mile including flushing and inspecting gates and hydrants — \$79.11.
7. Number of leaks per mile .073.
8. Length of pipes less than 4 inches diam. 2.20 miles.
9. Number of hydrants added during the year 22.
10. Number of hydrants public 2,163.
11. Number of stop gates added during year 51.
12. Number of stop gates now in use, 3,699.
13. Number of stop gates smaller than 4 inch, 95.
14. Number of blow offs, 228.
15. Range of pressure on mains, 16 lbs. to 91 lbs.

SERVICES

16. Kind of pipe; lead, cast iron and copper tubing.
17. Sizes, $\frac{1}{2}$ inch to 12 inch.
18. Extended 13,716 feet.
19. Discontinued 3,253 feet.
20. Total now in use 181.0898 miles.
21. Number of service taps added during year:

New Bedford	186
Dartmouth	135
Acushnet (decrease)	31
Total added	352
22. Number now laid:

New Bedford	23,459
Dartmouth	4,350
Acushnet	1,312
Total now laid	29,121
Total now in use in N. B.	20,239
23. Average length of service 40.7 ft.
24. Average cost of service for the year:

(a) Gross	\$86.76
-----------------	---------
25. Number of meters to be deducted 94.
26. Number now in use, New Bedford only 19,878 (See Table S.)
27. Percentage of active service metered 98 $\frac{1}{10}$ %.
28. Percentage of water receipts from metered water =100.

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Three

AN ORDINANCE

ESTABLISHING PLUMBING REGULATIONS

DIVISION 35

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1.

PLUMBING REGULATIONS

DIVISION 35

- B. All iron, steel or galvanized iron range boilers, tanks, hot water tanks, vessels or containers less than 200 gallons capacity are prohibited and all iron, steel or galvanized pipes or water fronts are prohibited on water installation for domestic purposes.

For the purposes of this Division, a tank consisting of entirely non-ferrous metal material or a tank consisting of a completely non-ferrous container reinforced by ferrous or other material in which container water does not come in contact with any ferrous material, or a tank consisting of ferrous material but lined by non-ferrous material in which the water does not come in contact with any ferrous material shall not be prohibited. Nothing contained herein shall be construed to permit steel tanks or containers which are galvanized and such galvanized steel tanks and containers are specifically prohibited.

- C. Every tank qualifying under Section B hereafter installed in which hot water is to be stored to be used for domestic purposes or by the occupants of the building, and which may be subjected to a pressure of fifteen (15) pounds or more per square inch, shall be tested by the manufacturer to at least two hundred (200) pounds per square inch hydraulic pressure and shall bear the manufacturer's stamp, plainly showing to what pressure such tank has been subjected.

The following table shows the test required and the pressure allowed:

Working Pressure	Test
85 lbs.	200 lbs.
106 lbs.	250 lbs.
127 ½ lbs.	390 lbs.
148 ¾ lbs.	350 lbs.

The working pressure is the maximum pressure to which such a tank may be subjected when in service.

- D. Every such tank hereafter installed shall be so constructed by riveting or otherwise as to develop strength to withstand the required pressure test without distortion. Solder which fuses at a temperature below 600 degrees Fahrenheit shall not be

used to hold the tank together, but may be used to make it water tight.

SECTION 1A.

This ordinance shall be included in its logical place in "The Code of the City of New Bedford — Revised 1963" as a permanent ordinance, and all ordinances, parts of ordinances, rules and regulations inconsistent with the provisions hereof are hereby repealed and annulled.

SECTION 2.

This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).

AN ORDINANCE

PROHIBITING THE LITTERING OF WAYS AND PROPERTY

WHEREAS, the deferred operation of this ordinance would tend in part to defeat its purpose, therefore it is hereby declared to be an emergency ordinance which is necessary to insure the safety of the health of the people and their property

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1.

The Code of the City of New Bedford is hereby amended by inserting in Chapter 16 hereof a new section which shall read as follows:

SECTION 40. LITTERING

No person shall litter, or dispose of any garbage, refuse, rubbish, bottles or waste on a public way, or upon any way within the jurisdiction or control of any board, commission, department or other legal entity of the City, or on public property, or on private property without permission of the owner or the person in control thereof.

SECTION 2.

This ordinance shall take effect in accordance with the provisions of the General Laws (Ter. Ed.) Chapter 43.

AN ORDINANCE

PROVIDING FOR AN INCREASE IN THE MEMBERSHIP OF
THE BOARD OF TRUSTEES OF THE FREE PUBLIC LIBRARY

Be it ordained by the City Council of the City of New Bedford
as follows:—

SECTION 1. The provisions of the City Code as contained in
Sections 3-2101 and 3-2102 are hereby amended by striking out
said Sections 3-2101 and 3-2102 and inserting in place thereof the
following:

Sec. 3-2101 Constitution of board of trustees.

The board of trustees of the free public library shall consist of
nine members and the mayor who shall be an ex-officio member for
the term of his office; the other nine members shall be appointed
by the mayor, subject to confirmation by the city council as here-
inafter provided.

Sec. 3-2102 Appointment and confirmation of board.

Annually in the month of April, the mayor shall appoint, subject
to confirmation by the city council, three members of said board to
serve for a term of three years from the first day of April in the
year in which they shall be elected, except that the three additional
appointments to be made at the time this ordinance becomes effec-
tive shall be one for a term expiring March 31, 1965, one for a
term expiring March 31, 1966, and one for a term expiring March
31, 1967; thereafter as their terms expire, their successors shall be
appointed for terms of three years.

Nothing contained herein shall be construed to limit, curtail or
abolish the terms of incumbents now serving.

SECTION 2. This ordinance shall take effect in accordance
with the provisions of General Laws (Ter. Ed.) Chapter 43.

CITY ORDINANCE

Zoning Change No. 8

CITY OF NEW BEDFORD

In the Year One Thousand Nine Hundred and Sixty-Four

AN ORDINANCE

Changing the zoning classification of property on Rockdale Avenue east of Stackhouse Street and more particularly described as Plot 22, Lot 66 from Residence B to Business.

Be it ordained by the City Council of the City of New Bedford as follows:—

SECTION 1. That the zoning classification of Plot 22, Lot 66, and more particularly described as follows: Beginning at a point in the North line of Rockdale Avenue, Easterly therein 54.93 feet from its intersection with the Easterly line of Stackhouse Street; thence Northerly in the Easterly line of lot 157 on said plan, 91.52 feet to a point in the Southerly line of lot 152 on said plan; thence Easterly 45 feet to the Northwestern corner of lot 153 on said plan; Southerly 123.06 feet in the Westerly line of said lot 153 and lot 155 on said plan to the Northerly line of Rockdale Avenue; Westerly in the North line of Rockdale Avenue, 54.93 feet to point of beginning. Which lot is now zoned as Residence B, be reclassified and zoned as Business; and that the Zoning Map duly adopted as part of the Code of the City of New Bedford be and hereby is amended to conform with said classification. Plan referred to is Plan Book 3, page 42, recorded in Bristol Cty. (S. D.) Registry of Deeds.

SECTION 2. This ordinance shall take effect in accordance with the provisions of Chapter 43 of the General Laws (Ter. Ed.).
